AUBURN ALUMNI ASSOCIATION

AUGUST, 1970

AUBURN, ALABAMA

No Matter What Co-eds Say, or Court May Rule—

Survey Reveals Parents Favor Rules for Co-eds Under 21

VET BUILDINGS—The buildings which will complete the facilities of the School of Veterinary Medicine on its Wire Road Site are nearing completion. The basic science building, pic-

tured above, will house classrooms and administrative offices. It is scheduled for occupation in the winter quarter. The Small Animal Clinic is expected to be finished by fall quarter.

Although the regulations regularly have become more lenient in the past five years, women's rules are still a much debated point at Auburn. Graduating seniors were relieved of curfews during the spring quarter, yet demands for further liberation of Auburn co-eds resulted during May in a small number of co-eds' camping out on the president's lawn for several nights and a court suit against the university.

Parents Polled

On May 18 (prior to the sleep-outs and the suit), the administration sent out a questionnaire to the parents of all Auburn undergraduate women students and the parents of girls who would be freshmen this summer and in the fall. Of the 4,530 questionnaires mailed, 3,346 were returned by the requested deadline of May 31. Since then another 96 have been returned.

In a letter accompanying the questionnaire (see below) President Philpott asked the parents to "indicate the expectations you hold for Auburn, your daughter, and more particularly, for her educational experience at Auburn."

have 12:30 on weekends and second and third quarter freshmen will have 11:30 week nights. First quarter freshmen will have 10:30 Monday through Thursday and 11:30 on Sunday. If a second or third quarter freshman receives a 2.00 grade point average (B) or above, she will have 1:00.

Prior to the action on the current curfews, 17 Auburn co-eds filed a suit in U.S. District Court charging the university with discrimination by sex (boys at Auburn have no rules) and asking the Court to declare the University's rules and regulations relating to women students an unwarranted infringement on individual rights.

Dismissal Denied

The University's request that the suit be dismissed has been denied. Although no date has been set for the hearing, the University expects it to be this fall. Meanwhile the University contemplates no further changes in girls' rules, until the court decision.

Regardless of what the Court decides and what their daughters (and their boy friends) think, the majority of parents indicated on the returned questionnaires that they approve of dorm life for their daughters and that they believe some rules and regulations in the dormitories are desirable.

Most parents did approve living off campus for seniors. However, 36 percent wanted girls to have both the university's and (Continued on page 3)

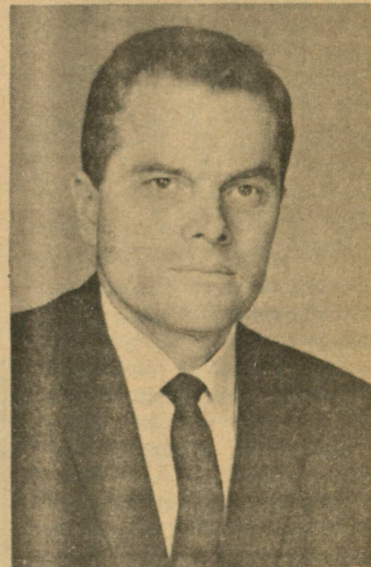

Students Object

The administration maintains that the response to the survey will not dictate girls' rules, but that it does let the administration know what the parents think. Some students, however, have charged that the questionnaire is unfair and that it is slanted in favor of the administration. The president and vice president of the Student Government Association were quoted in *The Plainsman*, as rejecting the questionnaire and the administration's position saying that the rules should be made by the ones who live under them.

Before the questionnaire was sent out, the University had approved the no curfew status for seniors and permitted senior co-eds to live in apartments in town with parental permission. The Associated Women Students (AWS) then submitted two proposals for further modifying the women's rules to President Philpott. The first called for an extension of the no curfew to juniors and sophomores and the second (submitted in case he did not approve the first) concerned curfew hours for other co-eds.

The following curfew hours were made public in mid-July and will be in effect for fall quarter. Seniors and women over 21 will have no curfews. Juniors will have 12:00 curfews Sunday through Thursday and 2:00 on Friday and Saturday nights.

Sophomores will have 12:00 on week nights and 1:30 on weekends. All freshmen will

SPEAKER—Dr. Charles Weaver, Chancellor of the University of Tennessee at Knoxville, will be the commencement speaker at the August graduation. Dr. Weaver is former head of the Auburn Electrical Engineering Department.

Became President in 1965—

Frank Malone Retires from Southern Bell

A distinguished Auburn alumnus, Frank M. Malone '28 who heads one of the South's largest companies will retire on September 1. The president of Southern Bell Telephone Co. for the past five years, Mr. Malone will continue as a member of the board of directors and executive committee of the company.

A native of Florence, he joined Southern Bell as a student in the company's general introductory training course in Atlanta on July 1, 1928. He subsequently served in Asheville, N.C., Jackson, Miss., and in Birmingham, where he was named Alabama manager in 1945.

VP of AT&T

Mr. Malone was promoted to general commercial manager at the company's headquarters in Atlanta in 1950 and later served as assistant vice president of the American Telephone and Telegraph Co. in New York.

Mr. Malone was elected vice president-public relations of Southern Bell in July 1951 and became vice president-personnel in February 1954. He was made vice president-operations west in 1957 and was named to the company's board of directors in 1960. He was elected president of Southern Bell August 1, 1965.

During Mr. Malone's presidency, the South Central Bell Telephone Co. was formed to operate in five of the states

formerly served by Southern Bell—Alabama, Kentucky, Louisiana, Mississippi and Tennessee. Southern Bell now operates in Florida, Georgia, North Carolina and South Carolina.

Mr. Malone is active in and prominently identified with civic, educational, and business affairs.

He is a director of the First National Bank of Atlanta, the Munich American Reassurance Co., and the Life Insurance Co.

MALONE . . . Retires

of Georgia. He is a trustee and past chairman of the Atlanta United Appeal, a director and past chairman of the Metropolitan Atlanta chapter of the American Red Cross and a member of the board of governors of the American National Red Cross and a director of the Georgia Safety Council.

Mr. Malone is a trustee of Emory University, Young Harris College, the Atlanta Arts Alliance and the YMCA. He is chairman of the Auburn Alumni Engineering Council, a director of the Commerce Club, and a director and vice president of the Capital City Club.

Mr. Malone and his wife Mary have two sons, Frank M. Malone, Jr., and Robert B. Malone.

In conferring an honorary doctorate upon Mr. Malone in 1966, Auburn President Harry M. Philpott said, in part, "Frank M. Malone, distinguished member of the class of 1928, has brought honor to himself and his Alma Mater by his accomplishments in business, management, finance and civic affairs. . . . A loyal alumnus, a past president of the Auburn Alumni Association, he has given freely and regularly of his time and resources, aiding Auburn by his gifts, counsel, and loyal leadership in times of crisis."

Industry Aid Hikes Research Funds 15 Percent

NEWLY ELECTED MRS. AUBURN—Sharon Landers Runyan was selected by a panel of judges as the third reigning Mrs. Auburn in a contest sponsored at Auburn University by the Auburn Union. Contestants were wives of students, or married women students. Sharon, employed by an Opelika firm, is the wife of Kelly Runyan, a senior in architecture at Auburn. Gifts from area merchants included a free vacation in Florida for Mr. and Mrs. Runyan. Auburn President Harry M. Philpott presented the winning contestant during a pageant in the Union Ballroom.

Top Honorary at Auburn—

Phi Kappa Phi Taps 42

Phi Kappa Phi has tapped 42 Auburn students for membership. The national honor society provides recognition for outstanding scholarship in all fields of study and is the top honorary at Auburn. Initiation and a banquet will be held August 18. Dr. Clarence E. Scarsbrook, professor of agronomy and soils, will address the group.

Graduate students include David B. Bradley of Citronelle; Robert J. Coleman of Ganzaes, Fla.; Leonard G. Copping of Herts, England; George Edward Crevar of Auburn; Harry L. Defebach of Birmingham.

Michael K. Eckman of Norwich, N.Y.; Chao Fang of Taipei, Taiwan; John M. Fontaine of Montgomery; Irby Gaudet of Thibodaux, La.; Richard O. Hayes of Atlanta, Ga.; Horace M. Holderfield of Five Points.

Carlton Jones of Autaugaville; Pat Golvineaux McCleary of Birmingham; William T. Padgett of Montgomery; Paul Spikes of Hattiesburg, Miss.; Robert L. Wise of Huntsville; and Milton E. Yarborough, Jr., of Moorsville.

Undergraduates are Gary E. Abercrombie of Sterrett; John Anderson of Anniston; Donna Katherine Barr of Florence;

James McDonald Boies of Hartford; Samuel L. Chesnutt of Auburn; Glenda Paulk Cody of Auburn.

Donna Dickey of Chatom; Rebecca Morrison of Selma; Charles Fred Goodwin of Trussville; Kirby Lamar Hart of Auburn; Jean C. Henry of Lanett; Walter B. Jeffcoat of Ansley; Teresa D. Jones of Auburn.

Michael D. Krambs of San Rafael, Calif.; John E. Lofton of Montgomery; Matt Jay Markey of Rumson, N.J.; Wylene McCollum of Waverly; Mary McCorquodale of Jackson; David Moody of Pesotum, Ill.; Paul Vincent Mullek of Summerdale.

Glenda Mae Parrish of Gadsden; Slater T. Parten of Auburn; Anne M. Harris Robinson of Tarrant; James William Roby of Auburn, and Nathan Kerry Wood of Auburn.

Keystone Alumni

Alumni members of "Keystones" and "Builders Guild" are invited to an open house on October 24 (Homecoming) at Biggin Hall. From 10 until game time, the present Keystones will be serving coffee and they welcome all former members to come by. The open house will continue after the game.

While other universities showed a decrease last year in funds coming in grants and contracts, Auburn had a 15 percent increase. Dr. Ben Lanham, vice president for research, explains that "although the support for research from federal agencies has decreased at Auburn, too, contracts and grants from industry and business has offset the drop. Last year 85 percent of the support for research at Auburn came from the Federal Government, this year 75 percent."

The other side to the story, however, shows that certain departments within the university are having to make adjustments. For instance, Dr. Lanham pointed out, "Outside grants which supported engineering such as NASA and the Department of Defense are down, while areas such as veterinary medicine, pharmacy, biology, and fisheries show an increase in support."

Several major grants in June, the record month for fiscal 1969-70, boosted Auburn's total. Among those grants were the \$800,000 grant from AID to support the Fisheries Department's new International Center for Aquacultures, several large grants from the U.S. Office of Education, and a major grant from International Paper Company Foundation.

The Office of Education grants include \$142,920 to continue the support of the "Teaching Teachers of Teachers" program; \$294,000 to continue support for the rehabilitation media service; \$139,583 for continued support of the Vocation Education Research Coordinating Unit; \$90,000 for a new project on vocational evaluation and the disadvantaged; \$69,173 for continued training in counselor education; and \$69,361 for a rehabilitation program for adults with noise-caused hearing loss.

The School of Education's long-time program in off-campus instruction and continuing education will be supported in 1970-71 by renewal of a grant for \$274,552 from the International Paper Company Foundation.

Contracts and grants from other Federal extramural sources included NASA, Army Missile Corps, Atomic Energy Commission, Public Health Service, Corps of Engineers, Department of Interior, and Department of Agriculture.

Awards from state agencies included the State Department of Education, State Highway Department, Industrial Relations Department, Vocational Rehabilitation Service and Geological Survey of Alabama.

Private agencies and organizations included Geigy Chemical Corporation, Chevron Chemical Company, Alabama Power Company, American Cyanamid Company, Masonite Corporation, Union Carbide Corporation, and DuPont.

AUM—Auburn University at Montgomery will relocate on its new campus in the fall of 1971 after almost three years of temporary residence during the planning and construction of the basic campus buildings. The legislature has appropriated \$5

million which will build a classroom building and library and basic utilities plant, and parking. Some 700 students are currently enrolled at AUM and the expected fall enrollment is the same. The faculty consists of 25 full-time teachers and six to eight faculty who divide their time between the Auburn campus and Montgomery.

LIBRARY—The Auburn library is taking its first steps toward computerization. In an experiment, serial items, articles in magazines and periodicals, will be recorded in the computer. To retrieve the information, the call number, title, and holding of the item is programmed into the computer. The entire article, supplemented by its location in the library may be recalled at any time. The program is expected to be in full operation by fall quarter. The experiment began as a class problem for an industrial engineering project. Similar systems of filing are presently in use at Georgia Tech, the University of North Carolina, and MIT.

RADIO STATION—The Board of Trustees has approved Dr. Philpott's recommendation to es-

tablish a 10-watt FM campus radio station, providing the funds can be arranged and legal problems cleared. The funds for the construction would be forthcoming from the Speech Department academic program, the Student Government Association, and the Concessions Board. The Speech Department will carry out the operation and administration. The projected radio station will have a broadcasting range of four to five miles and facilities would be located on the first floor of Haley Center.

ENROLLMENT—Summer enrollment on the Auburn campus is down for the second straight year. The total enrollment is about 6,600, down some 200 from the summer of 1969. Of the current enrollment around 1,700 are graduate students. Last summer's total was 1,699. Auburn University at Montgomery has 700 students enrolled for the summer. Predictions of fall quarter enrollment show an expected 15,000 on the Auburn campus and 700 at Montgomery.

CONFERENCES—A total of 2,188 people are visiting the Auburn campus in capacities other than those of student or future student. These people are attending the 19 conferences, sem-

(Continued on next page)

Campus Changes for Fall

When fall quarter begins a new school year at Auburn, 15,000 students will converge on the main campus and another 700 will register at Auburn University at Montgom-

ery. Students who will return from summer holidays will find a number of changes. The ones most likely to delight students and alumni alike is the 16,500-seat expansion of Cliff Hare Stadium which will be ready for the opening game with Southern Mississippi. The stadium now seats 61,000.

The buildings which will complete the School of Veterinary Medicine facilities on Wire Road are nearing completion. The move of the Small Animal Clinic is expected to be completed by mid-September. However, the main science building to house the academic departments won't be ready before winter quarter.

The School of Business is now permanently located in the newly-renovated Thach and Tichenor Halls and the buildings are now in use.

Among the newcomers to campus are several new department heads. They are: Dr. A. Cleveland Harrison, Theatre; Dr. Benjamin E. Griessman, Sociology; Dr. Carl Hale, Economics and Geography; and Dr. Ruth L. Galbraith, Consumer Affairs. Also new at the administrative level is Dr. Ben Barnes, director of the Computer Center.

Also new on campus this fall will be Dr. Jay Young, Auburn's first J. D. Hudson Professor of Chemistry. The professorship has been established by a Callo-way Foundation Trust establish-

ed here last year. Dr. Young has developed a distinctive reputation in innovative teaching in freshman chemistry. He will be in charge of the freshman chemistry program at Auburn.

IN APPRECIATION—Omicron Delta Kappa has presented Ginger Van Hooser, a majorette and Miss Auburn during the past year, the traditional silver bowl in appreciation for her leadership at Auburn University. ODK is the men's leadership honorary at Auburn.

Parents Favor Rules

(Continued from page 1)

the parents' permission. Twenty-three percent would agree with parental permission and five percent with University permission. Only seven percent of the parents were opposed, and 13 percent did not answer the question.

At the same time, most of the parents rejected off campus living for freshmen. Only four percent indicated acceptance of the plan under any circumstances. Twenty-six percent of the parents did not respond to the question regarding freshmen.

A high 97 per cent of the parents returning questionnaires approved of the university's having closing hours for the dorms and about the same percentage agreed to the present rule requiring women to sign out of the dormitories for the evening or the weekend stating where they are going or with whom.

Parents indicated that they would rely on the university's judgment regarding action when women violate the curfews. Eighty-two percent indicated that they would want the university to attempt to locate stu-

dents who are not in by a specified hour. Two out of three parents indicated that they would want to be notified no later than the next morning if their daughter remained out of the dorm after closing time.

The most vehement comments were received on the question of whether men and women should be permitted to visit each others' rooms in the dormitories. About 95 percent of the parents objected in either case, and written comments ranged from "no" to "hell no."

Sixty-nine percent of the parents approved the university's present requirement that women students who live in the dorms are required to take their meals in the dining hall. However, the question drew many comments, with a typical one being "Can't something be done about the food?"

The questionnaire showed that 75 percent of Auburn's undergraduate women students are residents of Alabama and 40 percent are from counties with populations below 200,000. Thirty percent are daughters of alumni, but 70 percent of the parents attended college.

The Questionnaire

Presently all undergraduate women students not living with their families are required to live in dormitories under university supervision. Seniors and students over 21 may secure permission from the Dean of Women, with approval of the parents, to live elsewhere. In your opinion, what groups of women students should be permitted to live off campus?

| | Yes | With university permission | With parents' permission | No |
|-----------------------------|-----|----------------------------|--------------------------|-----|
| 1. Those over 21 | () | () | () | () |
| 2. All seniors and above | () | () | () | () |
| 3. All juniors and above | () | () | () | () |
| 4. All sophomores and above | () | () | () | () |
| 5. All freshmen and above | () | () | () | () |

Dormitory regulations are established by Associated Women Students with the approval of the university officials. Some groups are interested in removing many if not all, of these regulations. Present dormitory closing hours vary from 10:30 p.m. to 1:30 a.m., depending on the day of the week and the classification of the student.

| | Yes | No |
|--|-----|-----|
| 6. Should we continue to set times by which women students must be in the dormitories? | () | () |
| 7. So that they may be located if necessary, women leaving the dormitories for the evening are now required to "sign out" stating with whom or where they are going. Should this be continued? | () | () |
| 8. Women students leaving the dormitory for overnight or for the weekend are now required to sign out stating where and with whom they are going. Should this be continued? | () | () |
| 9. Should the university attempt to locate those students who are not in by specified hour? | () | () |
| 10. Would you want to be notified if your daughter is out two hours after the curfew? | () | () |
| 11. The next morning? | () | () |

"No curfew" has come to mean that residents may come and go without restriction. Each resident, for example, may have a key to her dormitory. Should this be permitted at Auburn

| | Yes | No |
|------------------------|-----|-----|
| 12. for those over 21? | () | () |
| 13. for seniors? | () | () |
| 14. for juniors? | () | () |
| 15. for sophomores? | () | () |
| 16. for freshmen? | () | () |

We are receiving requests to change the present policy of requiring women in the dormitories to select from 7-day, 5-day, or 9-meals-a-week plans. This is an economical way to provide food services for these students, and further options will result in increased costs.

19. Do you think Auburn should continue to require that women students living in the dormitories take their meals in the dining halls?

20. What class is your daughter?

(1) Entering the freshman class, summer or fall, 1970 ()

WAR EAGLE HIGHWAY—Danny Wilkowsky and Jeanne Cobble, the reigning Miss Auburn, display the first official Auburn University War Eagle Highway sign which will be erected along U.S. 280 in the near future. The highway was given the designation by an Act of the Alabama Legislature under the sponsorship of Rep. "Pete" Turnham. The sign was designed by David

Wilson, a visual design student whose class was assigned to the project. The original idea for naming the highway was Danny's. As director of the Student Government Association's Community Relations Committee, he laid the groundwork for the legislation. The blue, orange and white signs are being made and will be erected by the Alabama Highway Department.

Campus Roundup

(Continued from page 2)

inars, institutes, and workshops on the campus in July and August. The variety ranges from a short course in herbicides to a design school for florists and includes a conservation workshop, State 4-H eliminations and a flight instructors revalidation course.

FISHERIES—A new building for fisheries and wildlife will become a reality in the near future. Dr. Harry M. Philpott announced the new building June 26 at ceremonies when Auburn received an \$800,000 grant from AID for an International Center for Aquaculture. The administration has allocated \$1 million for the first phase of the facility. The building now occupied by Fisheries was constructed in 1932-33 and has been occupied by that department since 1953.

ASTRO-TURF—The Monsanto Company bid a low of \$58,161 for installation of Astro-turf on the AU football practice field.

HARP—Marjorie Tyre of the Music Department has been elected for a three-year term as Southeast Regional Director of the American Harp Society.

SCHOLARSHIP—Ernie Terrell Seay, a junior in agricultural

engineering, has received the 1970-71 Ralston Purina Scholarship. The \$500 award is made each year to an outstanding junior or sophomore in the state universities and land-grant colleges in each state. Winners are selected by a faculty scholarship committee on the basis of scholastic record, leadership, character, ambition in agriculture and eligibility for financial assistance.

PROFS ELECTED—Dr. B. F. Hoerlein and Dr. R. W. Redding have been elected officers in the new American Veterinary Neurology Association. Dr. Hoerlein, head of the Department of Small Animal Surgery and Medicine and Alumni Professor, is the new president. Dr. Redding, professor of physiology and pharmacology in the Veterinary School, is the secretary-treasurer.

FORESTRY—Dedication of the new addition and renovated part of the Forestry Building will be held in late fall. The \$100,000 addition and renovation will provide mainly classrooms, but including labs, seminar rooms, and offices.

SERVICE—Dr. Kenneth R. Shrader, assistant professor in

the School of Pharmacy, has received a Distinguished Service Citation from the Alabama Pharmaceutical Association for his "contribution to the Alabama Medicaid Drug Problem." Dr. Shrader served as consultant to the State Health Department and implemented a system of payment to pharmacy vendors through use of a bank draft.

PSYCHOLOGY—Dr. Harold Moon, associate professor of psychology at Auburn, is the new president of the Alabama Psychological Association. Dr. Moon has edited the Association's newsletter and has been secretary-treasurer of the group. He has also been vice-chairman of the Alabama Board of Examiners in Psychology.

INTERIOR DESIGN—Charles B. Gandy of Birmingham, a student in interior design, has received a \$1,000 Celanese Scholarship. Auburn is one of five schools to receive such an award from the Celanese Fibers Marketing Co. The scholarship provides aid for a talented and promising young student to complete his last year of training. Runner-up for the award was Don Alan Reid of Jasper.

SHORTHAND—Shorthand is holding its own against recording equipment according to a recent speaker at an Auburn Business Education Institute. Dr. S. J. Wanous of the University of California says schools kill the shorthand course and then revive it again because of business executives demand for the skill in their employees.

The Ultimate Solution

by Kaye Lovvorn '64

The ultimate solution to all our problems is women's liberation. Arrange them as you will, the world's biggest problems are: war and its resulting miseries; pollution and its ills; overpopulation and its correlatives, hunger and overcrowding; and getting along with other human beings.

With liberated women, we shall automatically solve problem Number 1—war. No woman, be she Chinese, French, Russian, American, or Mongolian, wants to send off her husband, son, brother, or boy-friend to shoot people and be shot at. She wants him safe around so she can see him every now and then. She even prefers that he be in the office, on the golf course, playing poker, or stuck in front of the TV watching a ballgame, than off toting a gun. Consequently, with women running things, there would be no wars.

You may argue that Helen of Troy caused a war, but let me tell you that if Menelaus, whom Helen chose above all other suitors, hadn't gotten complacent and taken the most beautiful woman in the world for granted and had paid her the proper attention instead of going to Crete, she never would have run off with Paris.

And, if Menelaus hadn't had that masculine pride about his possessions but had considered Helen a woman with a right to change her mind, he never would have taken off after them and caused that war. Instead, if he had picked a handful of flowers and trotted over to see Helen and told her that he needed her and that he wouldn't take her for granted anymore, she probably would have written Paris a "Dear John" letter and gone home with Menelaus and saved all that bloodshed.

As a footnote on women and war, let us admit that generations of us have had an affinity for a uniform, but heavens, men could wear uniforms without having wars. After all, numerous women have worn swimsuits and never gotten them wet.

As for pollution. What caused pollution? Industry. And who runs industry? Men. But with women in charge—and everybody knows that women can't run businesses and industry—the whole thing will *not* go up in smoke to pollute the air, but instead will close down. However, should these upstart feminists succeed in business, we still don't have cause for worry. Now that we have eliminated war, we have done away with much of the need for the polluting industries.

Now let us turn to population. Aha. That is the simple one. Emancipated women, so we are told, emasculate men. With emasculated men, how can there be a problem with population growth?

However, here and there a man will refuse to fall for that line that just because a woman is paid equally and has equal responsibilities in the office that he is supposed to feel emasculated. So, he will be masculine and she will be feminine, and the human race will continue. But with the resulting reasonable population we will eliminate hunger and overcrowding.

And on to our final problem, getting along with other human beings. With all the boys on one side and all the girls on the other, we have emphasized the basic and ultimate division, one which supersedes all the other petty little divisions that have eroded human goodwill and sisterhood (as Libs we demand equal time with "brotherhood."). Politics, religion, philosophy, heritage, color, nationality, education, wealth, social standing, beauty, creed,—all the present

(Continued on page 5)

THE CAMPUS THROUGH NEW EYES—Often we see things again and again without really seeing them. Ray LaFontaine and his camera have given us a new look at the library, at an old oak tree that stands on the back of the campus, and at Haley Center, rising out of the earth as if it were a ship on the ocean.

Auburn Alumnews

August, 1970

Volume XXV—Number 5 General Edition

President: James M. Brown '46; Executive Secretary: Joseph B. Sarver, Jr., '37; Associate Secretary: George (Buck) Bradberry; Executive Committee: Ralph Beauchamp '47, Cecil Yarbrough '42, Morris Savage '58, A. D. Holmes '38, Duncan Liles, Jr., '43, H. T. Killingsworth '19; and J. Gilmer Blackburn '50, ex-officio.

THE AUBURN ALUMNEWS is published eight times a year at six week intervals, September-July, by the Auburn Alumni Association, Auburn University, Auburn, Ala. (36830). Kaye Lovvorn '64 is editor; Ruth Whelchel '70, assistant editor. The Auburn Alumnews was entered as second class matter February 4, 1946, at the Post Office, Auburn, Ala., under Act of Aug. 24, 1912.

Here And There—

Call Us Snoopy

By Jerry Roden, Jr., '46

Today there occurred one of those coincidences that imply something more than accident in the scheme of things beyond conscious human control. While waiting for a conference with a student, I idly rearranged a stack of old papers, and the name Rick Farrell caught my eye in the process.

An hour later the conference finished, I went home, and this headline on a recent *Newsweek* (July 27) leaped up in my face: "Is Privacy Dead?"

The coincidence is that the old paper by Rick Farrell was an illuminating study of the "right of privacy." Rick did the whole thing to affirm—with the support of solid research—that such a right exists, that

Roden

the right is essential for the individual, and that many institutions and agencies in our land show little respect for the right or its importance.

Those of our readers with long memories will recall that Rick cared enough about his thesis to write a resume of his study for publication in *The Alumnews*. The *Newsweek* article confirms Rick's contentions about the dangers. If any of our readers haven't read it, a trip to the library for that issue of *Newsweek* would be time well spent.

The right of privacy is threatened with extinction from the right and the left—in the name of *free enterprise* on the one hand and in the name of *education, progress, and benevolent government*, on the other. Under the auspices of one or more of these worthy causes, most of us have assumed the right to sophisticated key-hole stances with the benefit of modern technology.

Of course, one can find some justification for each individual instance of keeping up with our neighbor's business. After all, we are doing it for his own good—or are we? Might it just be that, despite all our rationalizations, we are just plain nosey?

Let us conclude with this maverick's conviction that the questions are not simply rhetorical. We have become, albeit unintentionally, a nation of Peeping Toms. And it's time to call a halt to all of the snooping except for that limited amount absolutely essential to national security.

Squandered Time

I enter from the gay sunshine of day,
Into the massive auditorium.
No longer do the golden sunbeams play;
In contrast, the dark room appears gruesome.
Into the mammoth class I silently creep,
To find my place upon the numbered chairs.
With three hundred others I hope to reap
A fact, or two, that's hurled into the air.
In the far distance I can spy a man;
With chalk in hand, he stands upon a stage.
I know he speaks, but I can't understand
His words of wisdom to note 'pon my page.
Fifty minutes of squandered time go by;
Then I emerge no wiser, and I sigh.

—Pat Robbins

Toward a Favorable Environment

Approaching the Benign Environment, The Franklin Lectures in the Science and Humanities, First Series. Lectures by R. Buckminster Fuller, Eric Walker, and James Killian.

Edited by Taylor Littleton '51, University of Alabama Press, University, Alabama 35426, \$6.00.

The laziest way to write about another's writing is to dispense with the summary, paraphrasing, cataloging, explanation, opinion, or whatever in the usual review and to quote the man himself. However, the laziest way may also be the wisest way when one is dealing with Buckminster Fuller and his fellow lecturers. For why should one labor to produce a dull paraphrase or explanation of what's lively and fresh and clear in the original?

The phrase "benign environment" is James R. Killian's but the other two lecturers, Fuller and Walker, are talking about the same thing: a world in which the sciences and humanities stop protecting their own special interests, stop attacking each other, and work together to insure that a life worth living exists on this earth.

Buckminster Fuller

Two-thirds of the book consists of Mr. Fuller's lecture on "Education for Comprehensivity." But don't shy away because of fear that the title indicates the educationist double-talk which conceals rather than reveals. Fuller is no educationist, nor in strict definition is he a scientist. If in fact there can be definition of what Fuller the scientist, philosopher, inventor, and who he is, it is his own explanation:

"I have become known at all only because in an age of almost complete specialization I have deliberately set out to be the opposite, to be a comprehensivist; and I have had no competition."

And, Fuller on specialization: "If Nature had wanted man to be a specialist, I am sure she would have grown him with one eye and a microscope on it."

"Extinction comes in—as a consequence of over specialization and a resulting loss of general adaptability."

Brain Slavery

"What we call specialization is really just brain slavery. . . ."

"We all got specialized with

everybody minding his own business, and now nobody can mind everybody else's business in order to put things together. That's where we are right now. We're all dressed up with enormous capability and absolutely no ability to coordinate the affairs of the earth."

On Survival: "We've gotten to the critical point of whether man is really going to survive here or not. And we've only just come to the point of learning that since wealth can only increase, we can afford whatever we can produce: whatever we need, we can produce and we can afford. . . . 'We've got to realize that this is so. Man is just coming out of a fantastic complex of slave thinking.'"

Way To Extinction

"Our society is on the way to extinction through man's overspecialization. Inadvertently, our society has developed its own antibody: the computer. And it has developed the computer because it is getting ready for World War III."

"We are about to have our computers take over the automation of the integrated tools that sustain you and me. Automation will take over those tools and it's going to make man utterly obsolete as a specialist. Man's going to be forced back to what he was born to be—a comprehensivist—to learn those generalized principals and to become master of his situation."

Eric A. Walker is concerned more explicitly with the task of the scientist and the engineer in society. He says the gulf be-

tween the engineer-scientist and the rest of the population is caused by "what science and engineering are capable of doing for mankind on the one hand, and what the average citizen is getting as a result of all this knowledge, on the other."

He believes that the problems of mankind are solvable if the knowledge of engineering and science is actually put to work on them:

Citizen Cheated

"The public is not satisfied mainly because there are many things that could be done for the citizen which are not being done by the scientists and engineers who are using public money. . . . For example, we have gone to the moon, and here on earth we have very fine automobiles, very fine airplanes, and in many places, very fine highways. But the average citizen still can't get from one place to another rapidly and safely."

Blame Engineers

"Certainly a large share of the blame for our slowness to act on these national problems must be laid to technology itself—to the engineer who traditionally confined his interest all too narrow-

Zivkovic Writes First Novel

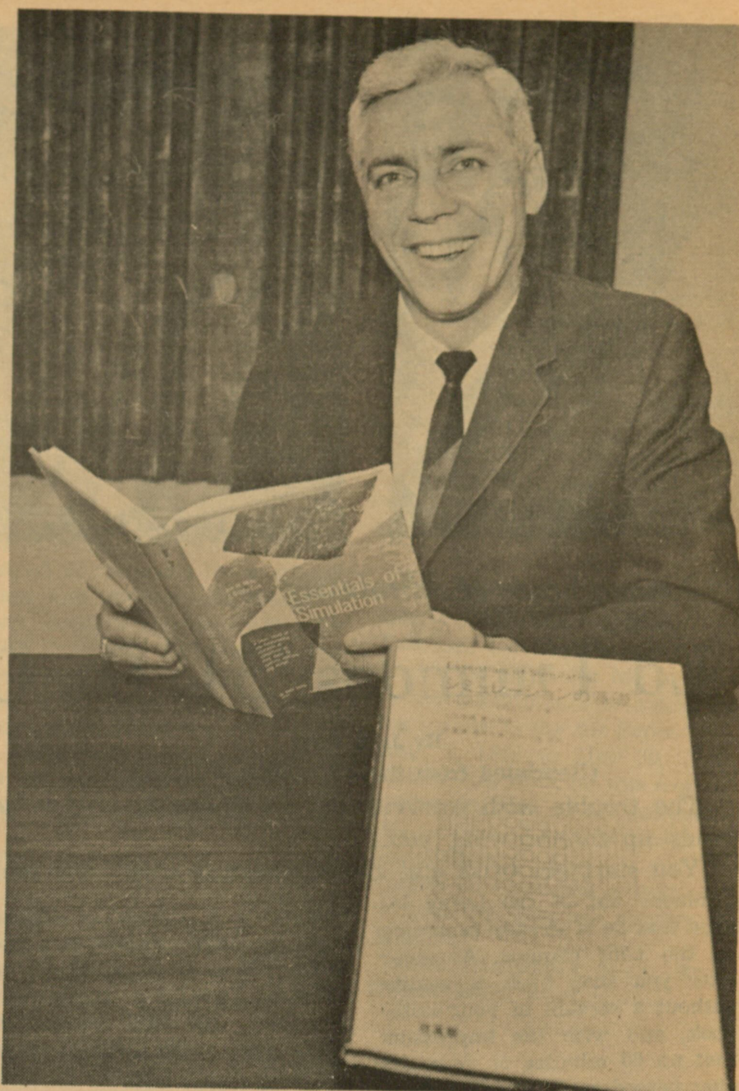

Bezich, by Peter D. Zivkovic, published by William Murray Publishers, 376 Oconee Street, Athens, Ga. 30610. \$1.75, paper; \$2.75, clothbound.

A former Auburn English instructor, Pete Zivkovic has been a scholarship football player, a hod carrier, furniture mover, beer-truck driver, carpenter, restaurant manager, professional baseball player, camp counselor, coach, cryptographer in the Army during the Korean War, and—writer.

Apparently he's as versatile in the last endeavor as in all the others. Besides his new book, Mr. Zivkovic has a poem in the current issue of the *Southern Humanities Review*. Now an associate professor of English at Fairmont State College in Fairmont, W. Va., he has published several others poems and short stories in literary magazines.

The novel *Bezich* is the story of an East European immigrant in American society. But it is also the story of a third generation American of a Serb stock back in his ancestral land. *Bezich* is the old man, longing for his homeland and Morvich his young partner. The two men go to Serbia where each finds an answer of a kind. For the old man the answer is in the demands of local custom and death, for the young it is love and a new perspective on life.

ing out her frustrations on that innocent husband or boyfriend who is trying to do something good in the world. And we will have secured men's liberation in the process.

IN JAPANESE, TOO—Auburn University Engineering Dean J. Grady Cox checks the English version of an industrial engineering textbook he co-authored in 1968, while in the foreground is the recent Japanese translation. The book, *Essentials of Simulation*, was published by Prentice-Hall, Inc., Englewood, N.J., and Baifukan, Tokyo, Japan. Dr. Joe H. Mize, former associate professor of industrial engineering at Auburn, is the other author.

ly to his technical specialty, and who is only beginning to take his proper place in the mainstream of social activity."

The third lecturer, James R. Killian, Jr., makes a plea that "more humanists, scientists, and social scientists re-examine their relationships to society and descend from their ivory towers to engage in the grubby but vital social action that is required to advance the quality of our society."

In the year following the speakers' appearance at Auburn we have had a national hullabaloo about ecology and pollution.

But concerns described by Editor Littleton in his preface—"the fear that personality cannot triumph over technology and the suspicion that the nation is unwilling to halt the gradual erosion of our common life"—are too much with us.

The words "ecology," and "pollution" are bandied around while the smog gathers and hangs low on the east coast as well as the west, the mercury level increases in Alabama rivers, and man creeps further back into his cave of immediate concern and progress to train himself (and chain himself) as a specialist.—K.L.

Danforth Fellowship —

Graduate Aid for Alumnae

Women who hold bachelor's degrees from accredited colleges or universities, whose careers have been interrupted for at least three continuous years are eligible to compete for one of the thirty-five annual Danforth Graduate Fellowships offered by the Danforth Foundation. The purpose of the fellowship is to develop college and secondary school teachers.

Candidates for assistance may or may not have begun graduate work. Teaching experience is not necessary. A full- or part-time program leading to a master's or doctor's degree at an accredited college or university may be proposed. There is no age limitation.

Appointment is for one year and is renewable as long as the recipient remains in good academic standing and follows her original academic plan. Amount of each individual stipend will depend on individual need but will not replace income which might be earned if the recipient were employed. The maximum award for 1971-1972 will be \$3,000 (\$4,000 if recipient is the head of the family).

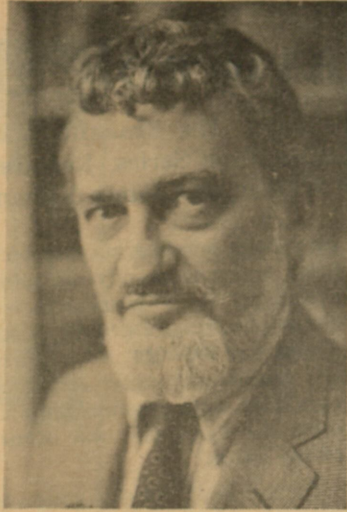

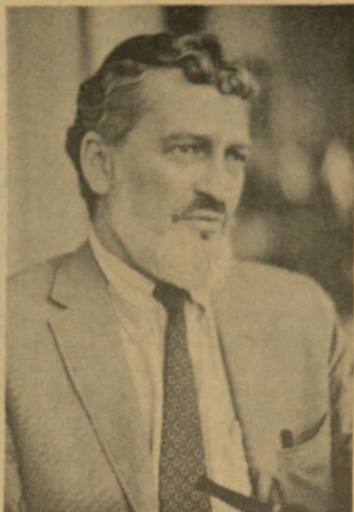

Additional information will be provided on request by the Danforth Foundation. Address correspondence to: Director, Graduate Fellowships for Women, Danforth Foundation, 222 South Central Avenue, St. Louis, Missouri 63105.

Hemphill Writes Nashville Story

The Nashville Sound: Bright Lights and Country Music, by Paul Hemphill '59. Published by Simon and Schuster. \$5.95.

Mr. Hemphill describes his first book as "all about the wild good-old-boy world of Cash and Wagoner and Tootsie's Orchid Lounge and the Opry," of the country music capital of the world.

A former columnist and one-time sports writer for the *Atlanta Journal*, Mr. Hemphill was a Nieman Fellow at Harvard in 1968-69. Now a full-time free lance writer, he currently is collaborating with former Atlanta Mayor Ivan Allen, Jr., on another non-fiction work and is working on his first novel, a story about growing up in minor league baseball.

The Many Faces of a Professor —

Ed Timmons '51: On Onions, Chil'ren & Bofe-Sided Doors

By Jack Fiser

(Reprinted from the *LSU Alumni News*)

The trouble with interviewing Ed Timmons is that he winds up interviewing you.

You start out brisk and singleminded to distill the real Timmons out of the living legend that he is already becoming on the LSU campus. An hour later you snap back to reality without a scratch in your notebook, and with the impression that no 60 minutes of your life ever passed so fast. As the Irish used to say, "he'd charm a burrud out of a tree."

With this important distinction, though: when an ancient Gael said that about a fellow-creature, it often held overtones of a con man, albeit a benign one—a fellow who'd charm you to get your vote, or something else he wanted. With Ed Timmons there is no aftertaste, only the matchless feeling of having had one's company enjoyed by another human being without stint or strings attached.

Charm Is Key

Having studied the subject professor through a three-hour class period, an all-day field trip to the Central Louisiana State Hospital, and a whole string of coffee breaks, we have concluded that charm is the key to the Timmons personality: he charms people so unfailingly because he is so unfailingly charmed by them. Like Will Rogers, he never seems to meet a man—or woman or child—that he doesn't like and have some time for; not with piety and forbearance, but with pure joy.

This is the man of whom his department head states flatly, "He is the finest teacher I have ever seen."

Dr. Edwin O'Neal Timmons, to put him in perspective, is an associate professor of psychology on LSU's Baton Rouge campus. Although he was 42 in May, this is his first teaching job. He joined the faculty nearly nine years ago after three years as a research and clinical psychologist at Veterans Administration hospitals in Tuscaloosa, Ala., and Gulfport, Miss. Earlier, he had served two separate stints as a paratrooper which delayed his progress toward three degrees: the B.S. at Auburn, the M.A. and Ph.D. at the University of Tennessee.

Ed was born and raised in and around the Georgia mill town of West Point, the son of a postal employee who farmed the family "home-place" on the side. He

now lives a couple of blocks from the LSU campus with the former Mary Birmingham of Trenton, Tenn., two manly sons and two beautiful daughters. Mary also holds degrees from Auburn and Tennessee and taught English at the latter university while Ed was finishing his doctoral work. All the Timmonses appear to be extremely fond of each other, and of other people, too.

Story of Beard

More often than not, the fondness is reciprocated, once people get to know the Timmonses a bit; but Ed's beard raises a few hackles at first glance. He doesn't attract much attention on campus, but townies have been known to bare their teeth. Ed chuckles to recall one elderly service station attendant who first disdained to speak to him at all, then snarled, "If you was mine, I'd have that thing off you before you could bat an eye."

He swears that there are no special reasons for the whiskers—just that he and Mary think he looks better with 'em. He didn't get around to shaving for several days once in a busy streak, after which the wife insisted that he let it go; some time later when he did shave off the beard, some bad bridgework had so altered the contours of his jaw that he flinched at what he saw in the mirror. He started another crop that same day, and hasn't been clean-shaven since.

The bulk of Timmons' teaching load this year is in graduate-level courses, but the one undergraduate course he teaches has marked him for special attention on campus. It is Psychology 59, a three-hour lecture course labeled "The Psychology Adjustment," and taught between 7 and 10 p.m. Wednesday nights. Held in Dodson Auditorium it enrolls 375 students.

Now it is a matter of common knowledge among university people that courses in abnormal psychology are usually big "drawing cards," partially for the worthiest reasons, partially for reasons not-so-worthy. Timmons' Psych 59 would seem to have several strikes against it. Being taught for three consecutive hours on one night in the

week is one; it would undoubtedly be fatal if the lectures were formal, or even conventional. Neither the acoustics nor the sight-line in the ancient semi-circular auditorium are up to modern standards. The course is not required for psych majors in any specialized area, which means that nearly all of the class members schedule it as an elective. And it is a far cry from a "crip" course—"A's" are extremely rare, and "D's" or worse, fairly frequent.

Despite all these drawbacks, Psych 59 has to be closed every semester with dozens still clamoring at the gate. The story goes that adequate representation in the course is now deemed so important that fraternities and sororities detail members to hit the registration lines early, in order to snap up as many as possible of the available openings.

This sort of thing, of course, can have in it an element of fadism, and may or may not have anything to do with fine teaching. But there are abundant instances which more tellingly make the point. One doctoral candidate in chemistry, for example, is now sitting in on 59 for the third time and is on the point of discarding all that he has done to date and switching to psychology.

It's pretty obvious that the subject matter alone can't be primarily responsible for this, so it must be Timmons. But how?

Talks With Students

He isn't really a lecturer at all, in the classical sense of the word. He talks with his 300-odd students, rather than at them, in a rich blend of Georgia cornpone, GI, and college mod, illustrating liberally from a rich trove of yarns, spelling out tech-

nical terms for emphasis. One of his favorite teaching aids is a picture of an onion which he draws on the blackboard, the layers representing the various defenses that a human being places between himself and the rest of the world. Timmons is earthy, though never obscene, and he has been known to toss in an "ain't" if it matched his mood.

(Lest our man be made to sound like some sort of academic Andy Griffith, let it be stated that Dr. Timmons does recognized research in industrial psychology and his consultant services are in great demand, and he has published some 20 journal articles on the behavioristic approach to group psychotherapy and verbal conditioning.)

Loves His Subject

It is his special edge over many capable psychologists—and instructors in other academic disciplines—that he is able to communicate enthusiasm along with information. He is, and sounds like, a man who is in love with his subject and with teaching; he comes through to his students as someone who really cares whether school keeps or not. "I think those are the principal reasons why Ed is the best teacher I have ever seen," declares Dr. Laurence Siegel, head of the Department of Psychology. "I don't discount his qualifications, his free-and-easy style or his showmanship, but I think the special qualities that commend him to students are his honesty and his sincere concern with them."

Is it the case, then, that honesty and concern are such rare qualities in college teachers these days that possession of them rates special mention?

Perhaps not; but in combination with the Timmons brand of hard sense and humor, they make up a package that may be rarer than most deans will admit.

Honesty & Concern

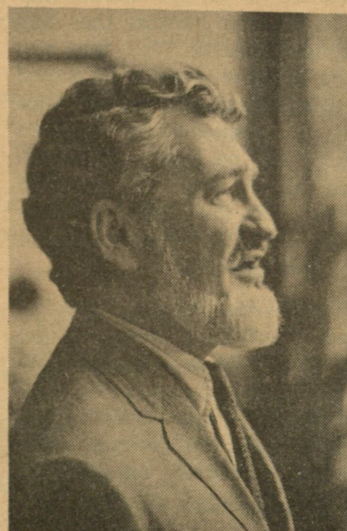

One recent evening in Psych 59 there was an example of the honesty that Dr. Siegel talked about. Timmons began by apologizing to the class for having done a poor job at the previous week's meeting—especially in the portion of the session that dealt with drug use and its effects. Later we asked him how he had failed in his own eyes.

"I don't think that I have ever assembled so much data for a class period," he explained. "I really worked on the preparation, but when time came for questions I simply didn't have the hard answers. I had to say 'I don't know' too often, and that isn't good enough—not in delicate areas like this where a lot of misinformation has been passed around and polarization of opinion is already far advanced. I simply blew it."

Perhaps that concern with the answers to student questions is another key to Timmons' classroom success. Whereas many of his colleagues permit or even encourage class discussion, he builds his whole course on it. Anyone may raise his hand for a question whenever he wishes, and many do so a half-dozen times during the three-hour period. He treats each question as if it were a real contribution.

Dr. Timmons activities outside the classroom are undoubtedly a teaching asset. His circle of acquaintances among students is wider than that of most faculty members. It is due primarily to his working with the T-

Auburn Alumnalities

'07 New address for George E. Bradford is Birmingham.

'10 Homer Q. Gantt has moved to Gantt.

'19 Mr. and Mrs. Leroy L. Self of Montgomery recently celebrated their golden wedding anniversary. Their daughter and her husband, Mr. and Mrs. Robert Varner '46 (Carolyn Self '47) entertained.

William R. Stephens now lives in Waco, Tex.

'20 William Elbert Snuggs of Sylacauga, president of the Alabama Retired Teachers' Association, addressed the Lee County Retired Teachers in June. Mr. Snuggs was a school administrator for more than 40 years and is a former president of the Alabama Education Association.

'21 Dr. Cyril F. Floyd, health officer for Russell, Lee, and Chambers Counties, retired for the second time on July 31. In 1957, he retired from the U.S. Army after 33½ years as a medical officer. He joined the Army in 1932 after five years as a general practitioner in Phenix City and Columbus. Dr. Floyd and his wife Loette have three daughters: Martha Jean (Mrs. Thomas Cunningham of Columbus); Edith Josephine, a graduate student at the University of North Carolina; and Thelma Frances (Mrs. Josh Kelly, Jr., of Jefferson).

'22 Robbie Smith Sparks (Mrs. J. W.) has retired from Century High School (Florida) and is living in Auburn. The library at the high school has been named Sparks Library in her honor.

'23 Beverly R. Holstun retired as county Extension chairman of Tuscaloosa County on June 30.

Alumni In The News—

Vogtle

Wadsworth

Alvin W. Vogtle, Jr., '39 president of The Southern Company of Atlanta, has been named the chief executive officer of the company.

Dr. Erwing W. Wadsworth '41 has been promoted to professor in the College of Education at Appalachian State University in Boone, N.C. Dr. Wadsworth has also been elected president of the Appalachian unit of the North Carolina Education Association and is chairman of the Boone Self-Help Association. He and his wife, Ann, live in Boone, N.C.

He has been critically ill since April but had made his retirement plans prior to his illness. Dr. Fred R. Robertson, director of the Extension Service, called his career "long and very distinguished." Mr. Holstun became a county agent in Butler County in 1934. He transferred to Tuscaloosa County in 1938 and remained there for the next 32 years except for military service during WW II.

'25 Leila Jordan Skinner (Mrs. Frank) of Thomaston retired in June after more than 36 years as a teacher in Marengo County. She taught at the school at Magnolia and at Marengo County High.

NEW ADDRESS: Ed B. James, Decatur.

'26 Dr. E. Clements Watt has retired and is now living at Lady Lake, Fla.

Hulette H. Huckleba has retired and now lives at Route 1, Hiassee, Ga.

William P. Caine, Jr., has moved to Frankfort, Ky.

Marion E. Boriss now lives in Coral Gables, Fla.

'27 Roy R. Burns retired in June after 43 years with Tennessee Corp. and its successor, Cities Service Co. He is making his retirement home in Nashville, Tenn.

W. H. H. Putnam, a veteran of 47 years in the water industry retired July 1. He was manager of the central division of the American Water Works Company System with headquarters in Pittsburgh, Pa. He worked in several positions with the Birmingham Water Works Co., reaching the position of vice president and general manager in 1949. When the American Water Works Co. sold the common stock of Birmingham Water Works to the City of Birmingham in 1951, he was named general manager of the Board. In 1956 he came to Pittsburgh as manager of American's central division. He and his wife Estelle, have one son, William E., a professor at Mesa College in Colorado. The Putnams plan to make their retirement home in Glendale, Ariz.

G. B. Phillips retired June 1 as head of the Alabama Farm Bureau Federation's pork promotion program. Mr. Phillips was well known all over Alabama for his many years of working with farmers as Auburn Extension swine specialist. When he retired from the Extension Service a few years ago he joined the Farm Bureau staff.

'28 Robert E. Smith, Jr., of Auburn, Alabama representative of Mutual Savings Life Insurance Co., has been awarded membership in the Eagle Club, the highest award offered by the Ordinary Agencies of the company.

'29 John R. Parrish, Extension dairyman, has been honored with a 30-year-length of service certificate from the U.S. Department of Agriculture.

'30 Richard A. Puryear, Jr., chairman and president of Ala-

bama Gas Corp., has been appointed chairman of the policy committee of the Chamber of Commerce of the U.S.

'31 Leonard W. Thomas, electrical engineer at the Department of Defense Electromagnetic Compatibility Analysis Center (ECAC), North Severn, Annapolis, Md., retired early this year. He had spent 28 years with the Federal Government. From 1942 to 1961 he was an electronics engineer at the Bureau of Ships in the Navy Department in Washington, D.C. He became an electrical engineer with the ECAC in 1961. For his dedicated service and professional abilities, he was awarded the Department of Defense ECAC Certificate for his professional contribution and meritorious service in the development of the Center. He has been a member of the American Standards Association Sectional Committee C 63 since 1944. As a result of his participation on this committee, he was requested to chair the Joint USA Delegation to a meeting of the International Special Committee on Radio Interference of the International Electrotechnical Commission in London, England, in 1946. He subsequently served as chairman of the "A-limits" subcommittee until 1961 and attended meetings in London, Paris, Stockholm, Milan, Lucerne, Brussels, and The Hague. He currently chairs the ASA sub-committee on "International Liaison." Mr. Thomas is not going into full retirement but will remain active continuing in the activities of the IEEE and the American National Standards Institute. He and his wife May have three children: Dorothy May Thomas Morgan (Mrs.

Horace C.) of Athens, Ga.; Lt. Leonard W. Thomas, Jr., '69, with the Air Force; and Sarah Ellen Thomas, who attends Greensboro College in North Carolina. The Thomases will continue to make their home in Washington, D.C.

Lanier C. (Pard) Lively has been promoted to transmission and distribution standards engineer with Gulf Power Co. in Pensacola, Fla. He will be responsible for design and construction specifications and approval of materials for overhead lines and underground distribution systems. He has been with Gulf Power for 19 years. He and his wife, Opal Lee, have two sons and a daughter. He is a senior member of IEEE Society.

Alvin McConnell is a member of the law firm of Kearley & McConnell in Mobile.

'32 E. Shannon Egge is now associated with Central Bank and Trust Co. of Birmingham.

NEW ADDRESSES: Julius L. Patterson, Montgomery; Clarence L. Dykes, Sr., Huntsville.

'33 Robert Arthur is the new president of the Southern Regional School Boards Association. He has been a member of the Birmingham Board of Education since 1969.

R. Porter Grant, recently retired as assistant adjutant general for the Mississippi National

Guard, is the new executive director of the Dothan United Fund.

'34 Col. W. H. Worley has retired from the Air Force and is living in Montgomery.

'35 Floyd K. Agee, county Extension chairman in Athens, was recently initiated into the Auburn Chapter of the honor society of agriculture, Gamma Sigma Delta.

'36 Brig. Gen. Herman L. Harris (Air Force Reserve) of Tallassee has been awarded the Legion of Merit for his conduct in the performance of outstanding service to the Air Force from Aug. 1, 1960 to May 30, 1970. During this time, he was mobilization assistant to the commander of the Air University at Maxwell AFB, Ala.

John G. Finch has retired, and he and his wife are moving to Arizona.

NEW ADDRESS: Mrs. Rose Hooper Hard, Raleigh, N.C.

'37 John A. Garrett, director of the Farmers Home Administration in Montgomery, received the honorary state farmer degree from the Alabama Future Farmers of America during its June convention. The award is the as-

(Continued on next page)

Timmons: on Onions, Chil'ren

(Continued from page 6)

Groups, or sensitivity training labs, sponsored by the LSU Union and the Student Government Association. Whereas his T-group work as a consultant for several Detroit industrial firms is income-producing, his work with the LSU students is strictly a labor of love. Largely because of it, he has developed a respect for college-agers in general and LSU students in particular, that comes as a pleasant contrast to much of what one hears these days. His favorite expression—and he uses it often—is "aren't they beautiful?" He calls the students all "chil'ren."

"When I moved in here nine years ago," he says, "my first impression was 'what possibilities, what a chance to do things!' I feel it more every year that goes by. These chil'ren are wonderful. There's simply nothing they're not capable of, and I can't hold still when people put them down."

Three Wednesdays out of each month he flies to Pineville to work at the Central Louisiana State Hospital and the Pine Crest School for Mentally Retarded as a consulting psychologist. He takes a deal of proprietary pride in both institutions, and once each semester he descends on them with all the members of his Psych 59 class by way of a field trip.

The visit is a pretty traumatic experience for patients and staff members, Ed concedes, but it's always a high point in his

year. It affords him the perfect opportunity to find out how the "chil'ren" handle their empathy in unfamiliar situations, and he is invariably delighted when one of them manages to break through his "onion-skin."

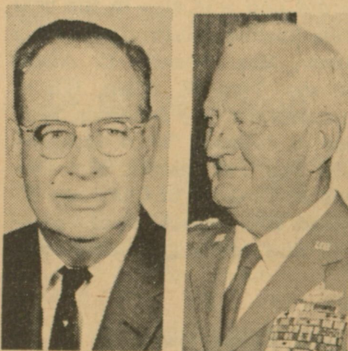

"The thing to remember," he always tells his visiting students, "is that these patients are even more afraid than you are."

Dr. Timmons thinks that fear is by far the blackest word in our language and that it encompasses most of what is alienating us. He believes that even healthy, apparently well-adjusted college students are all victims of it to one extent or another, and that if he himself has made any contributions, it is in his success at peeling away a few layers of a few people's onions.

His favorite quote is not from Freud, Jung, or Rollo May, but from his fellow-Georgian, Pogo Possum. It goes: "Every door closes on bofe sides," which Dr. Timmons translates to mean "You can't shut somebody else out without shutting yourself in."

Is Dr. Edwin O'Neal Timmons a great teacher? We'll leave that appraisal to someone better qualified, but we have no hesitation in saluting him as a yeasayer, an affirmative thinker, and an asset to any gathering. He goes through life with all his doors wide open on both sides. So long as universities employ a few men like him, they can't be all bad.

Alumni In The News

Carreker

McGehee

John R. Carreker '30 has been chosen by the American Society of Agricultural Engineers to receive the Hancock Brick and Tile Company's Soil and Water Engineering Award for 1970. Mr. Carreker is research investigations leader for water management in the Southeast for the Soil and Water Conservation Research Division of the U.S. Department of Agriculture's Agricultural Research Service. He and his wife, Helen, live in Athens, Ga. They have two children, Joan Louise (Mrs. Paul Cullinane), and James Russell.

Lt. Gen. Thomas K. McGehee '37 has received the Distinguished Service Medal for his service with the U.S. Forces, Japan and the Fifth Air Force from July 1968 to Feb. 1970. He and his wife, Frances, live in Colorado Springs, Colo. with their two children.

SCARBROOK MAKES AWARD—Dr. Clarence Scarsbrook '41, Professor of Agronomy and Soils, and international president of Gamma Sigma Delta, the Honor Society of Agriculture, presents Walter B. Hickel, Secretary of Interior, an award of merit and membership in the Society at the Ohio State University Centennial celebration. Dr. Scarsbrook recently was presented a personal gavel by the Auburn Chapter of Gamma Sigma Delta in recognition of his service as international president.

ALUMNALITIES—Continued

sociation's highest honorary award.

NEW ADDRESS: Stephen H. Kitchell, Las Altos, Calif.

'38 NEW ADDRESSES: Lt. Col. and Mrs. Gustav H. Franke, Jr., (Ret.) (Mary W. Franke '40) of Hampden-Sydney, Va.; Dr. Hal W. Turner, Southaven, Miss.

'39 C. E. Price is the general manager of Westinghouse's new industry services division. He will be responsible for the repair division made up of 60 plants which repairs and modernizes all types of electrical apparatus; the electric service division, which provides field engineering, technical direction, and start-up service and inspection; the Westinghouse Engineer Maintenance Co. which provides contract maintenance for petrochemical and industrial plants; and for industry services operations in Latin America. Mr. Price joined Westinghouse in 1940 on the company's graduate student training program. He was named general manager of the repair division in 1962 and in 1966 was awarded the Westinghouse Order of Merit, the highest honor the company can give its employees.

Wilbur L. Walton has been appointed the district superintendent of the Montgomery district of the Alabama-West Florida Conference of the United Methodist Church.

Mary Hulsey, Dr. Hoyt M. Warren, and J. C. Bullington have been presented 30-year service certificates from the Department of Agriculture. All three are Auburn residents and work with the Auburn Extension Service. Miss Hulsey is an associate district Extension chairman. Dr. Warren is assistant director of the Extension Service, and Mr. Bullington is a district Extension chairman.

'40 Paul M. Rudolph, internationally-recognized architect, received an honorary Doctor of Fine Arts from Florida State University on June 13. He was cited for his creative and progressive architectural style, and

for the courage to stand by his ideals in the face of controversy. He is now in private practice in New Haven, Conn., after heading the Department of Architecture at Yale University from 1958-65.

W. H. Kinard of Andalusia is secretary-treasurer of the Alabama Association of County Agricultural Agents.

Judge **John C. Godbold** of the U.S. Circuit Court in Montgomery has been named to the 1970-71 edition of *Who's Who in America*.

William R. Williams, of the Extension Service in Athens, has been initiated into the Auburn chapter of Gamma Sigma Delta, honor society of Agriculture.

NEW ADDRESS: Archie McGillivray, Baltimore, Md.

'41 John Livingston of Albertville has received a certificate of Distinguished Service from the Alabama Poultry Industry.

Maurice D. Sellers is now managing director for Celanese Columbia in Bogota.

Charles B. Vickery, county Extension chairman for Mobile County, has been initiated in the (Continued on next page)

Jordan Dies

Dr. James Lamar Jordan, Sr., died suddenly on June 26 at his residence in Auburn. He was 43 years old. Death was attributed to a cerebral hemorrhage. Dr. Jordan was an associate professor of educational administration at Auburn University. He had been at Auburn three years.

Dr. Jordan received his B.A. and M.Ed. degrees from the University of Georgia and his Ed.D. degree from the University of Tennessee. Before joining the Auburn faculty, he had 14 years experience as a teacher and principal in public school systems.

Survivors include the widow; one son, James L., Jr., one daughter, Miss Evelyn Ann Jordan, all of Auburn; mother, Mrs. Margaret Jordan of Rochelle, Ga.; one sister, Mrs. George Phillips of Georgetown, Ga.

In Memoriam '08 Through '70

Edward S. DeShazo '08 of Bessemer died on July 2 at his home. He is survived by his wife, Mrs. Elizabeth DeShazo; two daughters, Mrs. Betty Burgess of Louisville, Ky., and Mrs. Dorothy Carter of Tuscaloosa; one sister, Mrs. J. M. Denton of Helena; six grandchildren, and three great-grandchildren.

He was an elder in the Presbyterian Church and past president of the Bessemer Rotary Club.

William Charles Malone, Jr., '12 of Talladega died suddenly Jan. 30 at the drug store of his son, William Malone, III. Mr. Malone, a druggist for almost 50 years, owned and operated the Owl Drug Co., retiring in 1958. Surviving are his wife, Mrs. Lassie Weaver Malone; a daughter, Mrs. John McRoberts Mount of Atlanta; a son, William C. Malone, III, '41, and seven grandchildren.

Joel D. (Fish) Feagin '21 died on July 1 after an extended illness in a Montgomery hospital. He had lived in Montgomery for 50 years. Survivors include the widow, Mrs. Mercer S. Feagin; one stepson, R. E. Parker of Dallas, Tex.; one daughter, Mrs. Charles B. Langford of Dallas, Tex.; one stepdaughter, Mrs. Joseph P. Berry of Montgomery; two brothers, John L. Feagin '28 of Memphis, Tenn., and Jerry B. Feagin of Falls Church, Va.; one sister, Mrs. C. F. Shuptrine of Selma, and five grandchildren.

Grover Jackson Hornsby '21 died June 23 in a local hospital in Birmingham. He is survived by one daughter, Mrs. Marilyn H. Grund of Birmingham.

Thomas W. Allen '23 died June 17 at a local hospital in Gadsden. Mr. Allen was a distributor for the *Birmingham News-Post Herald* and was also in the real estate business. Surviving are his widow, Mrs. Annella C. Allen; one son, Tom W. Allen, III, of New Orleans; one daughter, Mrs. Jean A. Johnson '53 of Jacksonville, Fla.; two sisters, Mrs. Oenone A. Cook '43 of Charlotte, N.C., and Miss Lida Allen of Cromwell, and seven grandchildren.

John Elliott Davis '23 died July 7 in a private hospital in Langdale. Mr. Davis was chairman of the board and chief executive officer of Batson-Cook Co., builders of the Atlanta Memorial Arts Center. He was also chairman of the board of the West Point Foundry and Machine Co., and was an officer of the Riverside Corp., a development company, and Able Construction Co. of Greenville, S.C. Survivors include his wife, Mrs. Earline P. Davis; two daughters, Mrs. William Scott, Jr., of West Point Ga., and Mrs. John W. Luchsinger of Morristown, N.J.; two sisters, Miss Elizabeth Davis of Birmingham, and Mrs. Alvin G. Flanagan of Denver, Colo.; two stepdaughters, Mrs. James Nobles of Phenix City, and Mrs. Larry Andrews of Smyrna, Ga.

Carl B. Salts '25 of Santa Barbara, Calif., died in 1967 according to recent information.

John Tucker Harris '26 of the Beauregard community near Auburn was killed on July 17 when his gun accidentally discharged when he was crossing a fence. Survivors include his widow, Mrs. Gertie Harris of Opelika; one daughter, Mrs. Lucy Ann Janopaul '54 of San Francisco, Calif.; two stepsons, Johnny and Sonny Thompson, both of Opelika; one stepdaughter, Mrs. Clara Lou Horne of Opelika; one sister, Mrs. Frances Harris '36 of Mobile; and one brother, P. R. Harris of Opelika.

A. V. Blankenship '30 died on June 5 in a local hospital in Charlotte, N.C., after suffering a heart attack. He founded the A. V. Blankenship Co., and later formed the A. V. Blankenship Construction Co. Mr. Blankenship was the developer and owner of the first major shopping center, the Park Road Shopping Center, which opened in Charlotte in 1956. He also owned the Southeastern Realty Co., and had interests in other companies. He served as a lieutenant commander in the Seabees in World War II and constructed the water system for Okinawa. He is survived by his wife, Mrs. Beatrice Edens Blankenship; three sisters, Mrs. Edward N. Johns of Vashon, Wash., Miss Delia Blankenship of Washington, D.C., and Mrs. Robert M. Kennedy of Charlotte, N.C.; and one brother, Mercer J. Blankenship of Charlotte.

Fred Norris Matthews '30 died in 1968 according to information received in the alumni office.

Aaron R. Griffith '31, D.V.M., died on June 16 according to information received in the alumni office.

James Emmett McQueen '33 of Clayton died April 6. Mr. McQueen taught vocational agriculture at Clayton High School. He is survived by his wife, Dottie Stough McQueen '57; two sons; three brothers, Henry '38, Ross '34, and H. Frank '35, and three sisters, Mrs. Carrie Lou Bayles '36, Mrs. L. A. Smith, and Mrs. Luke Lanier.

Thomas S. Roberts '39 died June 14 from injuries he received in an automobile accident in Blue Springs. Mrs. Roberts was also killed. Survivors include one son, Tom Roberts, of Abbeville; one daughter, Mrs. Jeannie Roberts Rane of Birmingham; four sisters, Mrs. C. M. Murphy of Abbeville, Mrs. Dewey Conrad of Panama City, Mrs. J. O. Smith of Urbana, Ill., and Mrs. J. H. Lamar of Tuskegee; and three brothers, Lawrence and Lowelle Roberts, both of Abbeville, and Louie Roberts of Headland.

B. L. (Buddy) Boteler '43 died July 4 in Fairfield. Mr. Boteler worked for U.S. Pipe in Bessemer for 23 years and had lived in Birmingham most of his life. He was active in the Boy Scouts and a scoutmaster for eight years. He was a lieutenant in the Navy during World War II. Survivors include his wife; a son, Craig L. Boteler; two daughters, Becky and Barbara Boteler, all of Fairfield; his parents, Mr. and

Mrs. Charles B. Boteler of Trussville; and a sister, Miss Virginia Boteler of Birmingham.

Dr. Wyatt B. Pouncey '46 died June 13 in Dublin, Ga. He is survived by his wife, Mrs. Evangeline Pouncey of Dublin, Ga.; his mother, Mrs. T. J. Pouncey of Montgomery; a son, Sam Coursen; two daughters, Miss Barbara Pouncey and Miss Elizabeth Pouncey, all of Dublin, and a brother, Theodore Pouncey of Montgomery.

Robert J. Scogin '45 died July 9 in Kingsport, Tenn. He was senior purchasing engineer for Tennessee Eastman Corp. in Kingsport. Mr. Scogin was vice president of Tennessee Association of Purchasing Agents and a member of the National Association of Professional Engineers. He was also active in the Boy Scouts. Survivors include his wife; two daughters, Misses Jean Ann Scogin and Kathryn Lynn Scogin; and two sons, Robert, Jr., and William Randall Scogin, all of Kingsport; his father, W. D. Scogin, and a brother, W. D. Scogin, Jr., '49, both of Dora.

Sidney A. Gibson '46 of Bluff Park died at a local hospital on July 5. He is survived by his wife, Mrs. Vedah Creel Gibson; an adopted son, James D. Gibson of St. Louis, Mo.; two grandchildren, James D. Gibson, Jr., and Thomas B. Gibson.

Elford B. Ray '47 died on July 13 from cancer in Bryan, Texas. He is survived by his wife, Mrs. Sybil Boney Ray and two children.

Dr. Charles I. Harding '55 died in a plane crash on July 4 on Seward Mountain, in the Central Adirondacks. His wife, Susan and their sons, David, 12, Tucker, 10, and Marc, 4, were also killed. The family was going to Westminster, Md., when the single-engine plane, piloted by Dr. Harding, crashed into the mountain and burned. At the time of crash there was poor visibility and a low ceiling. The Hardings were returning from a business and vacation trip to Montreal, Canada. A son, Charles, 15, had remained at home in Jacksonville, Fla.

Dr. Harding was senior vice president of the Jacksonville firm of Reynolds, Smith and Hills, Architects, Engineers, Planners, Inc. He was chairman of the board of Environmental Engineering Inc. of Gainesville—a Reynolds, Smith and Hills affiliate which he helped found in 1965. Before joining Reynolds, Smith and Hills, in 1967, Dr. Harding had been a member of the engineering and graduate school faculty at the University of Florida; a sanitary engineer for the Florida State Board of Health; a commissioned officer in the Coast and Geodetic Survey, and an instructor at Auburn University.

Ens. John Neil Rouse '70 and his wife **Phyllis Allen Rouse '69** were killed in an automobile accident on July 1 in Tyler, Tex. They were returning from a va-

ALUMNALITIES—Continued

Auburn Chapter of Gamma Sigma Delta, honor society of Agriculture.

Roy E. Jeffcoat has resigned as executive director of the Troy State University Foundation to give more time to his business interests. He has spent 41 years with Alabama public education.

NEW ADDRESS: Wilnot Q. Rhodes, Plantation, Fla.

'42 Joseph R. McCleskey, Jr., is with the NDC North Pacific Ltd. at its new offices in Tokyo, Japan.

Dr. Wilford S. Bailey, vice president for administrative and academic affairs at Auburn University, has been named to the 1970-71 edition of *Who's Who in America*.

Dr. J. E. Thompson of Lanett is the new president of the Alabama Optometric Association.

Hugo Parkman is business manager of the Southern Baptist Convention's Philippine Mission in Manila.

'43 J. Walter Barr has been named president of Pneumafil Corp. of Charlotte, N.C. He joined the company in 1951 as assistant to the president and has served as director of manufacturing, vice president in charge of manufacturing, vice president of special products, executive vice president and general manager of operations, sales, engineering, and manufacturing.

Col. Jim McLurkin retired from the Army on June 4. He is now living in Salemburg, N.C.

Charleroi McCue MacEachern (Mrs. N. Gordon) was an official guest at Muniz Air National Guard Base in Puerto Rico on July 4 for the formal unveiling of her portrait of the late Lt. Col. Jose A. Muniz. Mrs. MacEachern, Colorado Springs, Colo., portrait painter, painted the WW II and Korean War hero from photographs. Muniz flew with the famous Flying Tigers in WW II and was killed in a plane accident in 1959.

'44 Jim W. Waitzman, president of Tractor & Equipment Co., Inc., of Birmingham, has received the "Top Ten" award of

International Harvester Co., Inc. **W. H. Cobble, Jr.**, president of Valley Steel, Inc., in Fort Payne, has been elected to the board of the State National Bank.

Ray Jeffcoat of Opp-Micolas Mills has been elected vice general chairman of the Alabama Textile Operating Executives.

Herman E. Dean, Jr., president of Furniture Distributors of Birmingham, Inc., has been elected president of the National Wholesale Furniture Association.

'45 Thomas V. Raines, D.V.M., is now employed as a veterinary medical officer with the Division of Veterinary New Drugs, Bureau of Veterinary Medicine of the Food and Drug Administration in Rockville, Md. For the past 13½ years, he had been with the research and development department of the Norwich Pharmacal Co. in Norwich, N.Y., as director of avian clinical research and senior research associate in veterinary parasitology.

Col. Andrew W. LaMar, Jr., is new vice president of the Auburn Rotary Club.

Ben T. Richardson of Scottsboro, Extension Service agent, has been nominated by the Alabama Association of County Agricultural Agents for a national distinguished service award.

Lt. Col. Cecil T. Chapman is Deputy Commander, MEDDAC for Veterinary Activities at Ft. Polk, La.

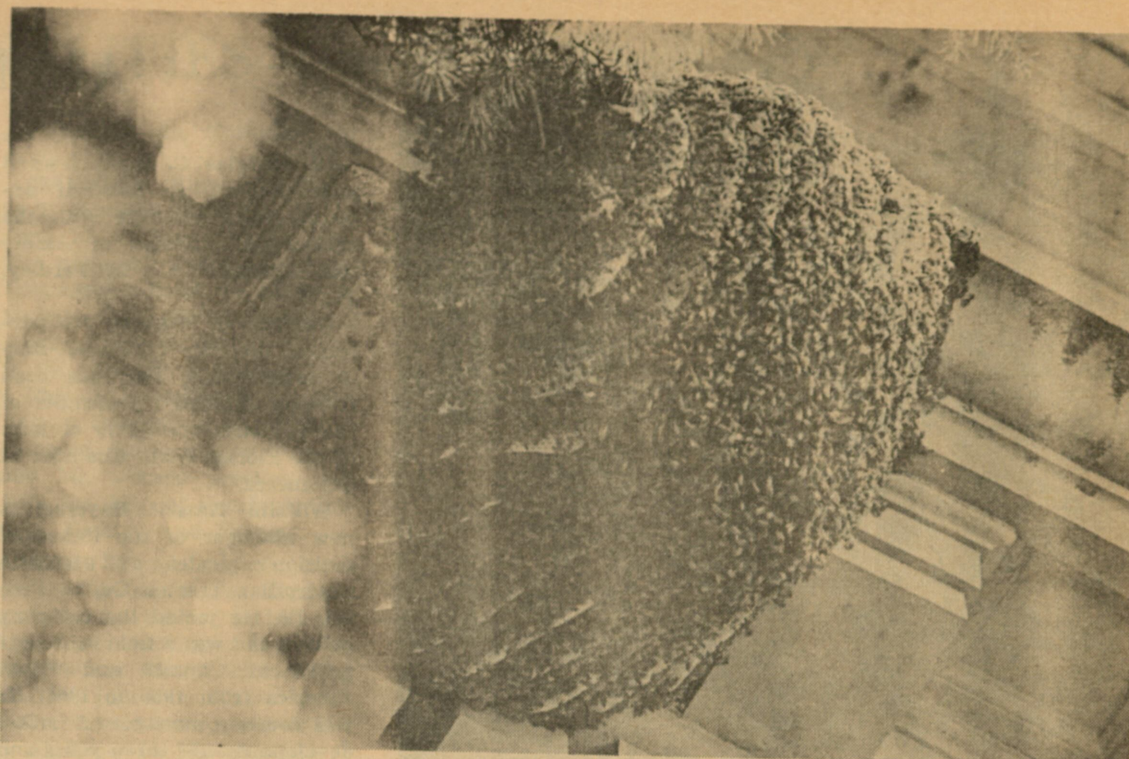

Margaret Toomer Hall (Mrs. John R.) has been elected president of the Women's Association of the Atlanta Symphony Orchestra. The Women's Association is a volunteer supportive group. She is also vice president of the Atlanta Symphony Orchestra Board of Sponsors. Her husband, **John R. Hall '48**, is a partner in the real estate development company of Adams, Willis, and Hall in Atlanta.

NEW ADDRESSES: Frances Meaders Klein, Barrington, Ill.; James T. McMichael, Winston-Salem, N.C.

'46 Dr. Phillip F. Eiland, Jr., is with North American Rockwell in Reading, Pa.

Jerry Roden, Jr., is the new executive director of the Alabama Council on Human Relations, which recently announced an expanded program to improve race relations and living conditions of the poor. Mr. Roden, a former member of the English faculty at Auburn, has worked for several years as a volunteer in promoting better race relations, education, and economic development for the poor. He served on the board of directors of the Alabama Council from 1965 until his appointment as executive director on June 1. A charter member of Southeast Alabama Self Help Association (SEASHA), Mr. Roden is in his second term as president of that organization. He recently became chairman of the board of directors of the newly-organized Self Help and Rural Economic Support (SHARES), a cooperative in Luverne. The Alabama Council will maintain its state office in Auburn.

Frank H. Hawthorne, a Montgomery attorney, has been listed

TO BEE OR NOT TO BE—That is the question at Auburn University these days, as "Bee-man" Dr. George Blake ponders removing this hive on the top corner of Mary Martin Hall. According to Dr. Blake, the hive started out as temporary quarters—but taking a tip from the busy students—grew into a permanent home, full, probably, of white and crimson clover

nectar, poplar, and the variety of flowers around the Auburn campus. But the bees will freeze to death this winter Dr. Blake says, and whether or not there will be any honey left is problematical. When the temperature gets to 57 degrees, they'll eat it themselves to keep warm. Meanwhile, the beehive attracts and distracts other residents of Mary Martin Hall.

in the 1970-71 edition of *Who's Who in America*.

'47 Dr. James Frederick Bruce has been appointed public health officer for Russell, Lee, and Chambers Counties. Dr. Bruce has been in private practice for 18 years in Opelika.

Mack Williams, director of the materials center of the Auburn City Schools, served on the elections committee of the National Education Association at their convention in July.

Dr. Boris Boshell's dream of a diabetes hospital is on its way to becoming a reality. Ground-breaking ceremonies for The Diabetes Research and Education Hospital at the University of Alabama Medical Center were held July 1. The \$3 million struc-

ture will be the first public diabetes hospital in the U.S.

Col. Herbert S. Holdsambeck is stationed at Vandenberg AFB, Calif. His daughter, Sarah Kathryn, is a student at Auburn.

Col. Howard Mac Lane recently completed a tour in Vietnam and returned to the States. After going to West Point for their son's graduation, the Lanes left for Col. Lane's new assignment in Rainstein, Germany.

William L. Pittman of Gadsden is new superintendent of stores for the southern district of Republic Steel Corp. He joined Republic Steel in 1959 as a buyer in the purchasing department.

Allen M. Mathews, Extension chairman in Dothan, has been initiated into the Auburn chapter of Gamma Sigma Delta, honor society of agriculture.

'48 Ruby Watson Butler (Mrs. John Ed) of New Hope is the new president of the Alabama Extension Homemakers Council. She was elected at the organization's 44th annual meeting in Montgomery in June.

Frank Morris, vice president of the First National Bank of Opelika, graduated from the 21st annual session of the School of Banking of the South at Louisiana State University.

Col. and Mrs. Douglas W. Blacklock (Florence Owens) and family have returned to Auburn following his retirement at Ft. Sam Houston, Tex. Their children are Robert, Jr., in college; Susan, who will be a high school senior; and John, 10.

R. O. Magnusson of Huntsville has been elected vice president of the Alabama Association of County Agricultural Agents.

'49 Dorsey L. Haynes, director of the Opelika State Vocational Technical School, was recently featured in the *Opelika-Auburn News* "People Who Make a Difference." Mr. Haynes became director of the school in 1964. Prior to that appointment he had been assistant state sup-

erintendent of education. The Opelika School is the largest in the state with an enrollment of 600. Earlier in his career, Mr. Haynes had been a teacher, school principal, and superintendent of Randolph County Schools. He and his wife Evelyn, who teaches accounting at the Trade School, have two children: Philip, 15, and Rosemary, 7.

Eddie Downs, president of the Bank of West Blocton, recently received an honorary state farmer degree from the Alabama Future Farmers of America Association. The degree is the organization's highest honor.

John Yarbrough, editor and publisher of the *Southeastern Poultry Times*, served as chairman of the Hall of Fame Committee of the Alabama Poultry Industry Association which recently met in Birmingham.

Lt. Col. Edward T. Williams is commandant at Michigan Tech. Mrs. Williams is **Ann Sturkie '48**.

Junius L. Kendrick of Montgomery represented the Alabama section of the American Society of Agricultural Engineers at their recent annual meeting in Minneapolis, Minn. He is chairman of agricultural engineering for Alabama Power Co.

Heyward T. Taylor, Forest Service civil engineer at Auburn, has been named an assistant director of the Division of Engineering in the Forest Service, U.S. Department of Agriculture in Washington, D.C. He has had a varied career as a civil and research engineer. He began work with the Forest Service in Northern California and returned to the South in 1954. He has held engineering positions with the Service in Alabama, Tennessee, and Washington, D.C., before becoming a project leader in the Forest Engineering Research Laboratory in Auburn.

MARRIED: Felicia Annette Ray '59 to A. D. Davis in Athens, Ga., on Aug. 1. Mrs. Davis

(Continued on page 10)

Alumni In The News—

Cannady

Martin

William E. Cannady '42, senior analyst with the investment banking and brokerage firm of Dean Witter & Co. of San Francisco, has been elected president of the California Business Administration Alumni Association of the University of California at Berkeley.

Ross Martin, Jr., '43 has accepted the position of General Manager of Cosper Foundry, Inc., of Birmingham.

CAMPUS ARBORETUM—A project begun in the 1940's, and abandoned in the 1950's because of the high cost, will be completed sometime this year. Plans were reactivated for the arboretum in 1959, and in 1963 the University Campus Planning Committee designated the present site. The area was cleared of brush five years ago, and in 1967 the final plans were approved. Linda Trexler, of Huntsville, and Mack Crawford, of High Springs, Fla., are already enjoying a quiet walk there "away from it all." Small wooden bridges span the ditches, and a natural-rock dam makes a small pond in the center of the arboretum. The seven acres of trees, shrubs, and woody vines will be used for educational and recreational purposes. Dr. Donald Davis, professor of botany and plant pathology, and chairman of the arboretum committee, says "The primary value of the arboretum is that it will be a pleasant place to work and relax rather than just technically, a tree collection."

ALUMNALITIES—Continued

has been home management specialist at the University of Georgia Cooperative Extension Service. Mr. Davis is principal of Pine Mountain Elementary School.

BORN: A son, Peter Roth, to Mr. and Mrs. James C. Lyle of Cocoa Beach, Fla., on April 24. . . . A son, Scott Parker, to Mr. and Mrs. W. Parker Childress (Ruth Carpenter '50) of Roanoke on June 3. He joins Karene, Donna, and George.

'50 Emmett Poundstone is a partner in Poundstone Florists in Montgomery which has become affiliated with Florists' Transworld Delivery Association.

J. A. McLean, Extension agent in Troy, is one of four Auburn Extension Service staff members nominated by the Alabama Association of County Agents for national distinguished service awards.

Albert Pitts of Fayette has assumed the presidency of the Alabama Association of County Agricultural Agents. Since his election he has been transferred to Tuscaloosa County as Extension chairman.

The Rev. **Lowell Ledbetter** is new secretary of the Auburn Rotary Club. He is adviser to foreign students at Auburn

University.

Lt. Col. Billie F. Wood, has received the Meritorious Service Medal upon retirement from the Air Force at Scott AFB, Ill. He distinguished himself as an air operations staff officer at the Headquarters of Military Airlift Command at Scott. He has 22 years of service and holds the aeronautical rating of command pilot. Col. Wood, his wife Margaret, and daughters Pennie, Rhonda, and Sharon will live in Decatur, where he will be Junior ROTC instructor at Decatur High.

Lt. Col. John M. Norton is a student at the Army War College at Carlisle Barracks, Pa.

Frank Sego, executive vice president of Downtown Unlimited, is new president of the Downtown Montgomery Exchange Club.

Lee McAlister has been named a vice president at Omniplan Architects Harrell & Hamilton in Dallas, Tex. Mr. McAlister is technical coordinator for the firm's activities in regional shopping center, retail store, and commercial work.

'51 Dr. L. Clark Gravlee, Jr., a Birmingham gynecologist, has devised a new method for detecting uterine cancer.

'52 Douglas C. Davis has a new position as national accounts sales manager with the agricultural division of American Cyanamid Co. in Yardley, Pa.

Godfrey G. Bennett, Jr., personnel director of Sav-A-Stop in Jacksonville, Fla., has been recently appointed a member of the industrial relations division of the Florida State Chamber of Commerce.

William Russell Haycraft is new manager of the industrial division's dealer sales with Caterpillar Tractor Co. in Peoria, Ill. He joined the company in 1956 and was a field representative in Canada and South America from 1959 to 1965. He was assistant manager of market development for three years and was appointed a manager in product control in 1969.

'53 James Creamer has been promoted to assistant vice president with Avondale Mills, Inc., in Sylacauga. Mr. Creamer is advertising and sales promoting director at the company.

Robert W. Howard is the newly appointed director of the Alabama School of Trades in Gadsden. He was a vocational rehabilitation counselor for several years and was appointed district supervisor of the Marshall-DeKalb district in 1964.

Lt. Col. William W. Reynolds has received his second award of the Air Medal at Kirtland AFB, N.M. He was decorated for meritorious achievement as an RB-57F Canberra reconnaissance aircraft pilot at Kirtland. He is now an air operations officer in a unit of the Air Weather Service.

Guilford E. Smithson is now a professional engineer with G. E. Smithson & Associates in Hickory, N.C.

Lt. Col. Nelson Conover is commanding the 588 Engineers Battalion in Vietnam. His wife, **Elizabeth Jones**, and two sons Charles and Rick are living in Auburn while he is in Southeast Asia.

Lt. Col. Thomas D. Fluker is assigned to Ft. Knox, Ky., after graduating from the Army Command and General Staff College at Ft. Leavenworth, Kan.

'54 Roy Ledbetter is club service director of the Auburn Rotary Club.

Cecil Miller of Linden has been nominated by the Alabama Association of County Agricultural Agents for a national distinguished service award. He works with the Auburn Extension Service.

George Wright of Huntsville Manufacturing Co., is a new member of the executive committee of the Alabama Textile Operating Executives.

Dr. J. Parker Lamb, professor of mechanical engineering at the University of Texas at Austin, was appointed chairman of his department on June 1. Dr. Lamb has taught at Texas since 1963 and was previously with the faculty of North Carolina State University in Raleigh.

Kennard P. Howell now is associated with Lewis Garber &

Associates, real estate appraisers and consultants, in Nashville, Tenn. He holds the SRA designation awarded by the Society of Real Estate Appraisers and recently received the RM designation from the American Institute of Real Estate Appraisers. Mr. Howell specializes in rural properties for condemnation purposes.

Lt. Col. Thomas J. Warr is reassigned to Hunter Army Airfield, Ga., following graduation at the Army Command and General Staff College at Ft. Leavenworth, Kan.

Leonard Rice has formed Leonard Rice, Consulting Water Engineers in Denver, Colo. The firm specializes in hydrology, urban drainage and other water-related problems. It will provide services in urban and rural drainage, water rights analyses, computer application to hydraulic engineering, and the development and control of water. For the past two years, Mr. Rice has been principal hydrologist for the associated firms of Wright Water Engineers and Wright-McLaughlin Engineers in Denver. He was technical coordinator for the Urban Storm Drainage Criteria Manual published in 1969 by the Denver Regional Council of Government.

Talmadge Balch of the Extension Service in Auburn has been initiated into the Auburn chapter of Gamma Sigma Delta, honor society of agriculture.

Dr. John B. Isbell, III, is associated with Isbell Clinic in Fort Payne in the practice of medicine.

Lt. Col. David E. Green is assigned as commanding officer of the 708th Maintenance Battalion in Germany after graduating from the Army Command and General Staff College in Ft. Leavenworth, Kan.

'55 Lt. Col. Wendell A. Childs has been named to a permanent position as professor in the Department of Physics at the U.S. Military Academy (USMA) at West Point, N.Y. He has been

on active duty with the Army since 1955. In 1965 he was assigned to the Physics Department at USMA and left in 1968 to attend the Command and General Staff College of the Army at Ft. Leavenworth, Kan. Since completing that course, he, his wife, and three children have lived in Charlottesville, Va., while he completed work on his Ph.D. at the University of Virginia. He will begin his new duties at West Point in the summer of 1971.

Luther J. (Jack) McGaughy has been named to head the Alabama Farm Bureau Federation's pork promotion program. He is a former Auburn Extension farm agent.

Otto T. Smith will be the first vocational education director for Cullman County.

M. Donovan Paulk has returned to the States from Venezuela and is living in Rome, Ga.

Maj. LeRoy G. Twilley continues to be assigned at Ft. Leavenworth, Kan., after completing the course at the Army Command and General Staff College. He received an M.S. from Troy State in 1969.

Jimmie Eichelberger of Handley Mills was recently elected to the executive committee of the Alabama Textile Operating Executives.

'56 Carol Ann Smith Padgett (Mrs. William H.) is chairman of the Biology Department at Ellen Cushing Junior College in Bryn Mawr, Pa. She and **Bill '51** have two children: William, Jr., 8, and Rebecca, 6. They live in Audubon, Pa.

Mrs. Sara Tubbs McKnight now lives in Kailua, Oahu, Hawaii.

John T. Sherrell of Birmingham has been appointed district sales representative with Rex Chainbelt, Inc. He will work in the Birmingham sales district.

Maj. John C. Boockholdt graduated from the Air Force Air Command and Staff College at Maxwell AFB, Ala., on June 5.

They say—

Feeling of Identity Necessary

"We are quite aware of a great deal of unrest, not only on campus but everywhere. Before we shout 'Quell it at whatever cost,' let's bring identity and relevance into the equation. No one wants to be a number, a faceless person, in any environment—be it home, Vietnam, business, or college—and much of the attention-getting antics is a clear call for personal recognition, a search for identity.

The more overt forms of unrest mean a search for relevance has not been productive in such fields as human and social relations. When I view the marches, hear the chants, and see the conflicts, I feel that many are desperately seeking meaning while time is running out."

—John L. Liles, Jr., '36, Vice President of Birmingham Trust National Bank, speaking at the Phi Kappa Phi, national honor society, banquet on May 26.

ALUMNALITIES—Continued

Charles M. Jager, president of First Western Bank of Bessemer, attended the Stonier Graduate School of Banking and was an instructor in the School of Bank Public Relations and Marketing at Northwestern University in June.

James H. Meigs, Jr., vice president of the First National Bank of Anniston, attended financial seminars at Rutgers during June.

Billy L. Belcher is manager of financial planning and controls in Westinghouse's architectural systems division in Grand Rapids, Mich.

Edwin J. Bannister was promoted to Army lieutenant colonel recently while attending the Command and General Staff College in Ft. Leavenworth, Kan.

'57 Nancy Hogan Thornton, who has handled publications in the Information division of the Auburn Extension Service for three years and worked one year with Extension's pilot project for young low income homemakers, has joined the professional staff and will continue publications work.

Ross Walter Miller received the Ed.D. from the University of New Mexico on June 5. He is an assistant professor of education and coordinator of instructional services at West Georgia College in Carrollton. He and his wife, Laura, have two children, Robert, 6, and Eliza, 5.

Lt. Cdr. Sam W. Adams, Jr., took command of the submarine USS Bugara on May 9 in San Diego. He was commissioned into the Navy upon graduation from Auburn and served aboard a destroyer and with the ROTC unit at Marquette University in Milwaukee, Wis., before entering submarine school. He later served as weapons officer on the submarine USS Robert E. Lee and as executive officer of the

submarine USS Archerfish. He completed a tour of duty in Paris at the French Naval War College and the French Armed Forces Staff Course before receiving command of the Bugara.

Maj. C. E. (Ed) Whitsett, Jr., recently completed a tour at NASA Manned Spacecraft Center, Houston, Tex. He has received the Air Force Meritorious Service Medal and a \$1,000 cash award for scientific achievement for his research in orbital EVA mobility units while detailed to NASA. He remains the principal investigator for the experiment M-509 "Astronaut Maneuvering Equipment" although he is now assigned to the Space and Missile Systems Organization at Los Angeles. The M-509 experiment is planned for the first Skylab space station in late 1972.

Maj. William H. Wood, Jr., received the Meritorious Service Medal from Astronaut Edwin E. Aldrin in June for contribution to landing the first man on the moon. Maj. Wood was cited for his performance as a lunar surface operations officer at the Manned Spacecraft Center in Houston which helped the Apollo Space Program land the spaceship on the moon and successfully return it to earth. He is an astronautical engineer and serves with the 1st Special Activities Squadron.

Mr. and Mrs. A. Martin Wright, Jr., (Judith Fuquay '65) now live in Greensboro, N.C., where he is a general contractor.

Charles Henry Blackburn, III, received an M.S. in industrial engineering from LeHigh University on June 7, through the University's program of on-the-job degrees for Western Electric engineering research personnel. The program couples formal graduate study at LeHigh with on-the-job training and research at Western's Princeton research center.

'58 Lee H. Thames has been appointed district sales manager with the Louisville & Nashville Railroad in Jacksonville, Fla. He began work with L&N in Montgomery in 1960 and has held sales positions in Pensacola, Cincinnati, and Tulsa where he was in charge of the Sales office from 1967 to his recent appointment. He and his wife have two children.

James Robert Clinton of Jackson, Miss., received the Master of Arts in Biblical Education from Columbia Bible College in Columbia, S.C., on June 1.

William R. Futral, county Extension chairman in Clanton, recently was initiated into the Auburn chapter of Gamma Sigma Delta, honor society of Agriculture. He has also been nominated by the Alabama Association of County Agricultural Agents for one of four national distinguished service awards.

Curtis G. (Kit) Logan, III, of Manchester, Conn., has been selected Jaycee of the Year by the Greater Hartford Jaycees. He has been a member of the Hartford Jaycees since July, 1969, where he is on several committees and edits the chapter's paper. During the year, he was honored by the Connecticut Jaycees as Jaycee of the Month. He works with the group de-

partment of the Travelers Insurance Co.

MARRIED: Elizabeth Dailey to **T. Kenneth Mattingly, II**, on June 17 in San Antonio, Tex. The astronaut (who missed his first space mission on Apollo 13 because of the threat of German measles) and his bride will live in the Houston, Tex., area.

Rose Ann McCorkle to **John Vernon Denson** on June 20 in Florence. They live in Auburn and Mr. Denson practices law with the firm of Samford, Tolbert, Denson, and Horsley.

BORN: Triplet daughters, Susannah Parrish, Norma Davison, and Martha Salter, to Mr. and Mrs. Ted Hoffman (Martha Bristow) of Fitzpatrick on May 23. They join John, 10, and Paige, 6. Ted is an attorney with Miller & Hoffman in Montgomery.

'59 Olin C. Brooks received the Juris Doctorate from the Birmingham School of Law on June 1.

Mr. and Mrs. Charles E. Davis (Maxine Reynolds '61) recently moved to Satsuma. Charles is with the Mobile district of the Corps of Engineers. They have three children: Miriam, Chuck, and Timothy.

Col. Emil E. Kluever recently graduated from the Industrial College of the Armed Forces at Ft. Lesley J. McNair, Washington, D.C. The Industrial College operates under the Joint Chiefs of Staff at the highest level of the military education system.

Maj. Samuel E. Armistead, Jr., has graduated from the Air Force Air Command and Staff College at Maxwell AFB, Ala. He is now completing requirements for a master's in political science from Auburn.

Maj. William W. Badger has graduated from the Army Command and General Staff College at Ft. Leavenworth, Kan., and is assigned to Iowa State University to do graduate work.

Mr. and Mrs. Huey W. Hewett (Emily Ellis '60) now live in Opp where he has assumed duties of chief accountant with Gunter-Dunn, Inc., a retail furniture chain.

Dr. Harold E. Cannon has completed his tour of duty with the Army and returned to Birmingham to begin private practice of orthopedic surgery on July 1 with Drs. Slappey, Faulkner & Morris.

Mr. and Mrs. George M. Sewell (Myra Lyle '60) now live in Naha, Okinawa, where they will be for the next three years. George is with Esso-Standard-Okinawa where Humble Oil is building a complete new installation. He is chemical engineering section head in the Okinawa Refinery Technical Department.

Tom Burleson is new principal of West Point High School in Cullman County.

Paul B. Krebs, president of Paul B. Krebs and Associates, has been re-elected president of the Consulting Engineers Council of Alabama.

Sidney L. Taylor, Jr., is now part owner and executive vice president of Taylor Wood Preserving, Inc., in Ocean Springs, Miss. He and his wife, Kay, have three children: Krisie, 9; Melissa, 7; and Trace, 5.

HIGHEST NAVY LAB AWARD—The Naval Ship Research and Development Laboratory in Panama City honored William B. Culpepper '51 (right) as its top scientist of the year for 1969. Mr. Culpepper, who presently heads the Man-in-the-Sea group of the Ocean Technology of the Navy laboratory receives the Commanding Officer's Annual Award for Scientific Achievement from Capt. L. O. G. Whatley, commanding officer. Associated with the laboratory since 1951, Mr. Culpepper was the principal designer for both the SEALAB I and SEALAB II habitats. He served as project leader during the initial phase of the Ocean Simulation Facility, presently under construction. The \$7.4 million facility, the only one of its kind in the world, will give the Navy the capability to test both man and hardware in a simulated ocean environment to 2,000 feet. Mr. Culpepper, his wife Anne, and son, Billy live in Panama City.

'60 Thomas D. Bivin of Sylacauga has been promoted to assistant vice president with Avondale Mills, Inc. He is in fabric merchandising with the company.

Henry J. Stern will head the Community Chest drive in Opelika.

Capt. Harrell W. Little is chief of engineering and technical design division at the U.S. Air Force Academy in Colorado.

Jackie Burkett of the Dallas Cowboys has been traded back to the New Orleans Saints of the National Football League. He came to Dallas two years ago in a trade with the Saints.

Arthur H. (Hank) Kirkby, Jr., has been appointed general superintendent of Interpine Lumber Co. in Picayne, Miss. He was formerly with MacMillan Bloedel, Inc., in Pine Hill, Ala. He and his wife Janet have two children, Kimberly Linn, 9, and Arthur H., III, 2.

Capt. Ray D. Reaves is a C-130 Hercules pilot with the 516th Tactical Airlift Wing at Dyess AFB, Tex.

Mr. and Mrs. Robert A. Miller (Patricia Posey '57) live in Florence, S.C., where he owns Southeastern Mechanical Corp., an air conditioning and heating systems contractor.

BORN: A son, David Allen, to Mr. and Mrs. Herbert H. Jones (Ray Nell Allen '59) of Auburn on July 7.

'61 Jamie E. Price has been named technical manager of Chemical Processing of Georgia at Dalton, Ga.

Jane Elizabeth Dudley Brooke (Mrs. Mel) and her family live in Denver, Colo. Mel is a pilot with Frontier Airlines and they have one son, Lance, 1.

Wayne Frazier, former Auburn and professional football player, has been named assistant football coach at Troy State. He was All-Southeastern Confer-

ence in 1961 and then played professionally with the San Diego Chargers, the Houston Oilers, and the Kansas City Chiefs until he retired in 1968. He will be offensive line coach at Troy.

Jack Anderson, vice president of Midway Bank of Opelika attended the 21st annual School of Banking of the South at LSU in June.

Maj. Frank E. Zipperer graduated from the Army Command and Staff College at Ft. Leavenworth, Kan., in June and is now assigned to Washington, D.C.

BORN: A son, William Boyd, to Mr. and Mrs. Robert G. (Bo) Davis (Susan Murphree '63) on April 27 in Decatur. He joins brother Guy, 3½.

'62 Grady Vancil Maraman received the Ph.D. in physiology from The Medical College of Virginia on June 6.

Benny W. Ozment is out of the Air Force and plans to be living in Atlanta.

Mr. and Mrs. Thomas D. Allen (Sydney Carolyn Smith '64) are now living in Columbia, S.C.

F. Leon Duke has been promoted to district industrial sales manager of the St. Louis sales office of International Salt Co. He joined the company in 1969 as a technical representative with the Atlanta office.

L. Terry Crouch has been promoted to senior distribution engineer with the Georgia Power Co. in Atlanta. He and his wife, Carroll, have a two-year-old daughter, Laura.

MARRIED: Catherine Ann Moss, to Thomas Wayne Betts on June 20 in Nashville, Tenn.

Dorothy Carroll Knowlton '68 to Edward Clark Richardson on June 20. They live in Birmingham where he is with Alabama Power Co.

'63 Mr. and Mrs. John H. Salter (Marilyn Pinson) are now

Vandegrift

Fleming

Erskine Vandegrift, Jr., '43 has been elected vice president of Region XI of the American Society of Mechanical Engineers. He is an engineer with the American Cast Iron Pipe Company of Birmingham. He and his wife, Mary, have four children—Dennis, 17, Teresa, 15, Elaine, 12, and Keith, 10.

Dr. Attie A. Fleming '43, Professor of Plant Genetics in the Department of Agronomy at University of Georgia, spoke at the College of Agriculture Honors and Awards Day at Clemson University. He is the immediate past governor of the 1100 Toastmasters in Georgia. Under his leadership Georgia became known as the "District on the Go," and led the world in the formation of new Toastmasters clubs.

DISTINGUISHED TEACHER AWARD—Dr. Robert S. Hudson, assistant professor, Large Animal Surgery and Medicine, School of Veterinary Medicine, Auburn University, was awarded a plaque and a check for \$200 for distinguished teaching. The award was made by Howard Johnson, Nordan Laboratories, Lincoln, Neb., and is made annually to a faculty member from each of the nation's veterinary schools. Hudson, according to Dr. James E. Greene, at right, dean of the School, was selected by the students in a general School election. Hudson received the D.V.M. from Oklahoma State University, and was in private practice before coming to Auburn in 1967.

ALUMNALITIES—Continued

living in Jacksonville. John will receive his M.S. in accounting from LSU in August and will be an accounting instructor at Jacksonville State University in the fall.

Sam V. Brannon has been appointed vice president of the real estate brokerage division of Bessemer Development Corp. He was formerly an assistant vice president in the real estate division.

Harry L. Deffebach will receive the Ph.D. in electrical engineering from Auburn in August. He and his family are spending the summer in Huntsville and will move to Tullahoma, Tenn., in the fall where he will be an assistant professor of electrical engineering at the University of Tennessee Space Institute. The Deffebachs have three children: Memorie, Jamie, and Bud.

MARRIED: Brenda Gale Elliott to **John Fraser, IV**, in Ardmore on July 18. Mr. Fraser is in business in Huntsville. . . . **Linda Sue Estes** to **George H. Haynes, III**, on June 27. They live in Atlanta where George is an engineer with Lockheed-Georgia in Marietta.

BORN: A son, Paul Ernst, to Mr. and Mrs. E. H. Wartenberg (Sara Kinzer) of Albany, Ga., on May 8. . . . A son, Charles David, to Mr. and Mrs. Charles D. Maret (Sara Shipley) of Dalton, Ga., on March 27. . . .

A son, Michael Scott, to Mr. and Mrs. **Francis M. Sanda** of Auburn on July 9. . . . A son, Douglas Anthony, to Mr. and Mrs. **Max E. Bell** of Atmore on April 25. He joins David, 6, and Debbie, 3. . . .

A son, Timothy Joe, to Mr. and Mrs. **Joe E. Hardwick** of Auburn on May 6.

'64 Earl R. Burns is a specialist in weed control with the Auburn Extension Service. He received the Ph.D. in agronomy from Auburn on June 9, and had been with the Department of Plant Pathology and Weed Science at Mississippi State Uni-

versity since January.

George Robert Stritikus received the Master of Divinity from Southern Baptist Theological Seminary in Louisville on May 28.

James William Morris is working toward a Ph.D. in Spanish at the University of Alabama. His wife, **Michele Susan Martin** '69, is editor of the University of Alabama alumni magazine, the *Alabama Alumni News*.

Capt. William E. Bartlett, Jr., is a WC-135 Stratolifter pilot at McClellan AFB, Calif. His wife is **Carolyn Orr** '65.

John W. Cottier of Auburn received the M.A. from the University of Alabama at the spring commencement.

Capt. and Mrs. John W. Ross (Rosalind Bentley) '68 are now living in Suitland Hall, Md., where he is assigned.

Dr. W. Newton Sharp, III, is practicing dentistry in Columbus, Ga. After graduating from the University of Alabama School of Dentistry in 1967, he served two years with the Air Force at Myrtle Beach, S.C. He and his wife, **Jackie Bailey** '65, have two children: Marty, 4, and Matthew, 2.

Richard W. Smith is now with Hudson Pulp & Paper Corp. in Palatka, Fla.

Harry Wilkinson is working in an interdisciplinary doctoral program at the Center for Japanese Studies, The University of Michigan. His wife, **Diane Snoddy** '66, is studying civil liberties law at the University of Detroit Law School. They live in Detroit.

Boyd A. Evans, Jr., who was awarded one of the "Outstanding Teacher" awards at Middle Tennessee State University in 1968, has been named director of development for the University. He has been on the staff of the University since 1965. In September, 1969, he was named assistant dean of men. He and his wife Patricia have a daughter, Lynn, 2½.

Edward Crum, assistant cash-

ier of the First National Bank of Auburn recently attended the 21st annual session of the School of Banking of the South at LSU.

BORN: A daughter, Elizabeth Lee, to Mr. and Mrs. **James Earl Sanders, Jr.**, in Atlanta on June 18. . . . A daughter, Kimberly Ann, to Mr. and Mrs. **Joe R. Younginer (Carolyn Brown)** of West Lafayette, Ind., on March 5. Mr. Younginer is a special agent with the FBI. . . .

A son, Jay Arthur, to Mr. and Mrs. **Kenneth R. Hammett** of Long Beach, Miss., on June 22. . . . A daughter, Courtney Ann, to Mr. and Mrs. **Lucius S. Wood, III**, of Philadelphia, Pa., on June 1. She joins brother Lucius S. (Luke), IV. . . .

A daughter, Kelly Sloan, to Mr. and Mrs. **Jerry F. Smith** of Livingston on May 15. Jerry is now head track coach at Livingston University. . . .

A daughter, Jean Persons, to Mr. and Mrs. **Raymond F. Newman, Jr.**, of Opelika on June 5. She joins brother, Raymond F., III.

'65 James D. Powell, Jr., business manager of the Lee County Hospital, is president-elect of the Alabama chapter of the Hospital Financial Management Association.

Anne Phillips Ball recently received the Ph.D. from Duke University.

Capt. Walter D. Ozley has

Home Ec Luncheon For Alumnae

by Elta Majors Boyd '26,

President, The Home Economics Alumnae Association

Come to Auburn on September 19 for the opening football game and fun and fellowship with Auburn University Home Economics Alumnae, associate members, and guests. Meet us in the banquet room at the Student Union Building at 11 a.m. for a luncheon. Please send your reservations and \$2.50 for each ticket to Miss Anamerle Arant, 296½ Chewacla Drive, Auburn, 36830 as soon as possible. The deadline is September 15.

Time passes quickly. There are too few opportunities for getting together. Auburn University, the School of Home Economics and the Alumnae Association wants to keep in touch. We want to know where you are and what you are doing.

The Association's current project is the Dorothy Dean Arnold Scholarship Fund. We want to close it out at \$10,000. Mr. Arnold is very generously matching each \$1,000 we raise. This leaves only a small part, as such funds go, for us to raise. We can do it. Dorothy Dean Arnold lived and moved among us as one of the truly capable, unselfish, gracious, and devoted spirits of our time. We cherish her memory, and we appreciate her personal and professional contribution to home economics and the community.

Project chairman is Carolyn Beck '58 (Mrs. Martin L., Jr.) P.O. Box 752, Auburn, Ala. 36830. Please send contributions and suggestions to her.

earned the M.S. in industrial management from the University of North Dakota. He is now assigned with the Air Force Institute of Technology education-with-industry program. He will receive training at the Grumann Aerospace Corp. in Bethpage, N.Y. His wife is **Marjorie Murrell**.

Jane Greene is now Mrs. Dennis Shipley and lives in Gainesville, Fla.

Lt. A. Kelvin Ross, Jr., graduated from the Ft. Sill Field Artillery Officer Candidate School as a Distinguished Military Graduate and was awarded an engraved silver sword in recognition of being number one in leadership in the class. He and his wife, Diane, are now living in Columbus, Ga., where he is stationed at Ft. Benning with the 197th Infantry Brigade.

Jerry L. Brown was promoted to process research and development supervisor at Monsanto in Anniston on June 15. He and his wife Wilma live in Heflin.

Capt. Wade L. Ward, Jr., is assigned to Minot AFB, N.D., after completing requirements for an M.S. in industrial management at the University of North Dakota.

Winston Jackson Hughes is a lieutenant in the Naval Reserve now on active duty as a staff legal officer with the Middle East Naval Command. He is stationed at Bahrain on the Persian Gulf.

Mahlon G. Turner of Huntsville is president of the Alabama Pharmaceutical Association.

William Franklin Watson, Jr., is now teaching school in Brunswick, Ga.

Page Riley will be teaching in DeKalb County, Ga., and living in Atlanta, next year.

Capt. James E. Smith is now stationed at Wurtsmith AFB, Michigan.

MARRIED: Rebecca Alford to **William Wayne Smith** on July 18 in Birmingham. Mr. Smith practices law in Birmingham. His bride is a former Miss Alabama who won a grand talent award in the 1967 Miss America Pageant. . . . **Angela Florene Whipple** to **Richard Bruce Wise** in Columbus, Ga., on June 13.

BORN: A daughter, Felicia, to Mr. and Mrs. **Michael Fong** of Auburn on June 18. . . . A son, James Cory, to Mr. and Mrs. **Claud C. Craig, Jr.**, of Clanton on June 10. . . . A son, Brian Kelly, to Mr. and Mrs. **Kelly Collum** of Green Bay, Wis., on June 4.

'66 WHERE THEY'RE WORKING: **Frank D. Meriwether** is a project engineer for Arnold Research Organization at Ames Research Center in Sunnyvale, Calif. He is married and has a small daughter. . . . **Sanford Baughman** joined Continental Oil Co. in Billings, Mont., upon his discharge from the Army. He is currently training as a district representative and expects to be transferred at the end of the summer. . . .

Jerry N. Phillips received an M.S. in electrical engineering from Georgia Tech on June 13. He is an electronics engineer with Lockheed-Georgia in Marietta, Ga. . . . **Lewis Stewart**

has been elected secretary of the Purchasing Management Association of Alabama in June. . . .

James Pinion is an agricultural farm agent with the Auburn Extension Service in Lawrence County. . . . **William E. Powell, III**, received a Ph.D. in meat science from Auburn on June 9. He has joined the state staff of the Auburn Extension Service as specialist in food science. . . .

Darlene Woodall, a fashion coordinator with Simplicity Patterns, spent a month in Spain, France, and Switzerland on vacation. . . .

Mr. and Mrs. **Bobby Howard Smith (Elsie Jean Ward '67)** live in Wichita, Kan., where Bob is a distributor with Koscot, Inc.

WITH THE ARMED FORCES: **Capt. Terry J. Coker** is assigned to Ft. Rucker, Ala., as an instructor pilot after completing a tour in Vietnam as a helicopter pilot. . . .

Capt. Charles W. Collins, III, is stationed in Huntsville. . . . **Capt. John H. Woodham** is on duty at Pleiku AFB, Vietnam. . . . **1/Lt. John T. Fisher** has received the Air Medal at Ubon Royal Thai AFB, Thailand. A navigator, Lt. Fisher was decorated for outstanding airmanship and courage.

MARRIED: Camilla Jane Irwin to **Joseph Frederick Schultz** on Aug. 8 in Huntsville. After military service, Joe returned to Auburn for study in food technology and is now working with Ocoma Foods, Inc. in Jackson, Tenn.

BORN: A daughter, Heather, to Capt. and Mrs. **Frederic H. Frost, III (Jacqueline Blakely)** '66 of Vandenberg AFB, Calif., on June 1. Capt. Frost is assistant chief of C.B.P.Q. at Vandenberg. . . .

Professors Form New Company

The newly-formed Associated Professors Incorporated (API) of Auburn includes four alumni on its permanent staff. The business will take a multi-faceted approach to problems of industry, municipalities, states, businesses, or educational organizations.

The staff includes: **Grady R. Harmon** '61, president of API, and a former assistant professor of mechanical engineering at Auburn. He has worked for NASA and Southern Executives Association.

Helen Neisler Martin '61, technical editor of the firm, and former technical editor for the Engineering Experiment Station of Auburn University.

Joe W. Yarbrough, Jr., '70, project engineer and a June graduate in mechanical engineering; and **B. Louis Rosato** '70, industrial designer, who graduated in March in industrial design.

Associated Professors Incorporated offers technical services in mechanical engineering, fiber and polymer sciences, industrial engineering, editorial work, marketing, and electrical and electronic engineering.

ETV Offers New Campus Service

by Carl Warren '71

Media services, a year-old division of Auburn Educational Television, provides a variety of services to the teaching departments on campus. The services include closed circuit television origination, motion picture production, graphic art preparation, maintenance and design of equipment, and preparation of slides.

Some of the projects media services engages in are:

—A series of 10 "pre-lab" films for the Physics Department. These 5-15 minute sound and color films show students how to properly set up experiments. The films will allow students to more efficiently dupli-

—A 30-minute film requested by several departments showing what goes on in the computer lab. In several courses students learn computer language, science, and theory, but access to the computer is limited. The film will show students what really goes on in the computer room.

—A time-lapse photography project for Dr. Hsu of the Chem-

ical Engineering Department. This film shows an autocatalytic reaction (A reaction such as occurs in the tempering of cold worked steel and copper and also in a wide variety of other crystallizing systems). The visual recording is possible only when the transformation is accompanied by unique changes of color and volume. The film will show the transformation of an amorphous material to a crystalline state, which is the same type of reaction.

—Several hundred slides for the History Department, primarily for use with freshman history courses. These slides consist of copies of maps and pictures taken from magazines and other sources. Dr. Maehl of the History Department calls the slides an "inestimable aid" to the department and hopes to call on ETV for more work in the future. The slides are also being used effectively in higher level history courses.

—Provide laboratory facilities for television production courses taught by the Speech Department.

—Maintain electrical equipment around campus.

—Reproduce films on video tape for Navy ROTC and closed circuit television origination for Army and Navy ROTC.

Mr. Edward Wegener, director of ETV, explains the conception of media services. "From 1955-1961 this department engaged in one kind of activity, namely, broadcasting on the state educational network."

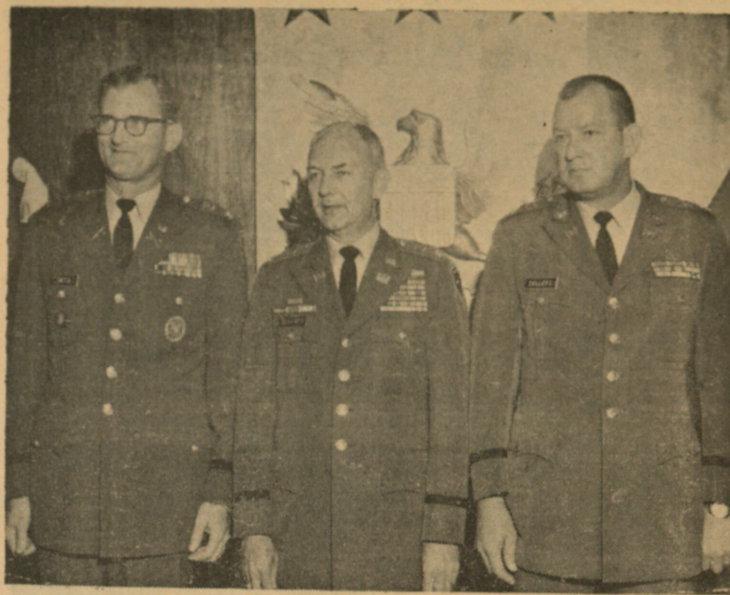

"In 1961, out of the teaching funds, the University set up a second budget and a second job for the department, which was to originate closed circuit telecasts just to serve the teaching departments on campus. For the next eight years we originated a certain limited amount of closed circuit programs."

"In 1969, Dr. Wilford S. Bailey, vice president for academic and administrative affairs, suggested a one-year experiment in which part of the closed circuit budget would be used for the preparation of certain media products." The experiment entered a second year of service this July.

Media services draws on the full staff of the Educational Television Station at Auburn. The staff includes 18 professional and over 50 student employees doing a variety of jobs: Operating cameras, doing art work, working in the laboratory, doing carpentry and doing technical tasks.

guished Flying Cross for actions on Sept. 1. He received the Air Medal and 14 Oakleaf Clusters for further action during his duty tour. Lt. Dunbar's wife, Ann, is a first lieutenant in the Nurse Corps assigned to the Medical Center at Keesler.

Lt. J. Jack Smallwood is in F-4 Phantom training until December at Davis-Monthan AFB, Ariz. . . . Lt. Joel D. Phillips arrived in Auburn on May 29 from a year's assignment in the Far East. His wife, Sally Melson, graduated from Auburn on June 9. . . .

ALUMNS MEET—Three officers in the class of 1970 at the U.S. Army War College, Carlisle Barracks, Pa., discovered that they were all alumni of Auburn University. (L to R) Col. Samuel L. Smith earned his bachelor's degree in agriculture in 1942; Col. Claude L. Roberts, Jr., earned his bachelor's degree in civil engineering in 1948; and Lt. Col. Philip D. Sellers earned his bachelor's degree in industrial management in 1950. They graduated from the Army's senior school on June 15.

1/Lt. Frankie A. Brumeloe received pilot wings at Laughlin AFB, Tex., and is assigned for flying duty with the Strategic Air Command. . . .

1/Lt. Alan P. Hinds is administrative officer with the 366th Tactical Fighter Wing at Da-Nang AB, Vietnam. . . . 1/Lt. Robert E. Rivers, III, has received the Air Force Commendation Medal at Rhein-Main AB, Germany. He was decorated for meritorious service. . . .

1/Lt. Mack R. Atkinson has been selected as the Tactical Air Command's Outstanding Missile Safety Officer for 1969. The award is one of five TAC individual safety awards presented annually to outstanding safety officers. Lt. Atkinson is stationed at Seymour Johnson AFB, N.C. His wife is Mary Ruth Brown and they have a four-month-old son, Hugh. . . .

2/Lt. Donald W. Magnusson is assigned to Perrin AFB, Tex., for flying duty after graduation from pilot training at Moody AFB, Ga. His wife is Mary Delchamps '65. . . . 1/Lt. William C. Bass is an air traffic control officer at Minot AFB, N.D. . . .

1/Lt. Dennis L. Baney, squadron commander of the hospital section at Perrin AFB, Tex., has been selected to attend the fall session of Squadron Officer School at Maxwell AFB, Ala. . . .

Lt. (jg) and Mrs. Larry Ronald Barnes (Mary Alford) are living in Newport-News, Va., while Ron's nuclear submarine, the Nathaniel Greene, is in the shipyards for overhaul.

MARRIED: Dianne Johnston to Ronald Lee Sharit in Birmingham on July 25. . . . Jane Taylor Robinson to Thomas Howard Maloy on Aug. 1 in Montevallo. They will live in Birmingham where Jane teaches and Tom attends the University of Alabama School of Medicine.

Mary Ann Barnett to Jack Carroll Sharp, Jr., in Birmingham on July 25. . . . Frances Lynn DeRamus to Donald Winfield Weldon, Jr., in Prattville on July 25. They will live in Charleston, S.C., where she teaches and he is a student at Baptist College. . . .

Patricia Eaton Boyd to Stanley Max Everett on Aug. 8 in Mobile. They live in Dallas where she teaches and he is with LTV.

. . . Nancy Ann Buckingham to James C. Abercrombie, Jr., on July 26 in Birmingham. . . .

Martha Humphrey to Jerome G. Tisdale on July 5, 1969. They live in Huntsville where she is art teacher at Butler High. . . .

Patsy Bess Alsbrook to William John Shearer in Reform on June 20. . . . Mary Diane Higginbotham to Robert Cooper Ray on Aug. 8 in Birmingham. . . .

Virginia Grissom to H. Max Brown, Jr., on Aug. 1, in Cullman. They live in Cullman.

BORN: A daughter, Laurie Ann, to Lt. and Mrs. Edward B. Fischer (Martha Steiner '66) on May 27. She was born in Montgomery while her father was on duty with the Navy. . . .

A son, Kelan Andrew, to Mr. and Mrs. Steven K. Forrest of Auburn on May 29. . . . A son, James Bryon, to Mr. and Mrs. James Albert Todd on May 17.

A daughter, Amy Leigh, to Mr. and Mrs. Charles Michael Salter of Montgomery on June 18.

'68 WHERE THEY'RE WORKING: W. Morris Welch will be an instructor in statistics and economics at Troy State University, beginning in September. . . . Melvin D. Bassett, test engineer with Georgia Power Co. in Carrollton, Ga. . . . Carol A. Robnett, librarian at IBM's federal systems division in Huntsville.

Richard Wood, former Auburn football player and an assistant coach at Jordan High in Columbus, Ga., has joined the coaching staff at Samford University. He will coach the defensive interior for the Samford Bulldogs. . . .

Ken O. Skinner is personnel manager of Genesco in Ripley, Miss. . . .

Diane McKee is Lee County's probation officer and the only woman to hold such a position in Alabama. Miss McKee counsels people from 17 to 65 and is on call 24 hours a day to see that all rules and regulations are followed. . . .

Murray A. Parks, Jr., and James F. Rowe, Jr., received the M.S. from the Institute of Textile Technology in Charlottesville, Va., on June 9. . . .

Ann Allen Hill is now Mrs. Charles White, Jr., and lives in Atlanta. . . . Lynda Louise Smith

(Continued on next page)

ALUMNALITIES—Continued

A daughter, Heather McCormack, to Mr. and Mrs. LaTrelle S. Grayson (Kay Watts) of Birmingham on May 6. LaTrelle is with John Hancock Mutual Life Insurance Co. . . .

A son, Richard Maurice, to Mr. and Mrs. Richard K. Foster of Jackson, Miss., on June 23. Richard is staff pharmacist at Franklin General Hospital in Brandon, Miss. . . .

A daughter, Lynese Jane, to Mr. and Mrs. Charles A. Wilson of Auburn on June 25. She joins brother, Gregory. . . . A daughter, Susan Leigh, to Mr. and Mrs. James D. Burns (Jan Howell '62) of Valdosta, Ga., on June 23. . . . A daughter, Robin Layne, to Mr. and Mrs. Rod L. Taylor of Tampa, Fla., on May 10.

'67 WHERE THEY'RE WORKING: Mr. and Mrs. Charles C. Moore, Jr., (Nancy Lucias) are now living in Atlanta. Charles was released from active duty on May 5. He received the Army Commendation Medal "for meritorious service as adjutant and as personnel officer, headquarters, 6th battalion, 62d Artillery, from August, 1968 to May, 1970." He is now a junior accountant with Atlanta Gas Light Co., and Nancy will teach this fall in the Atlanta School System. . . . Dr. Michael Kilpatrick is with the Dental Clinic, Searcy Hospi-

tal in Mt. Vernon. . . . Mr. and Mrs. Russell S. Foxhall (Helen Likis '65) have moved to Greer, S.C. Rusty is technical service engineer with Celanese Corp. . . .

Howard Charles Walton, III, received the Master of Arts from East Tennessee State University on June 5. . . . Frank G. McGee, Jr., has been discharged from the Navy and is now manager of Helmy Furniture Co. in Savannah, Ga. . . .

George Goulding Stott received the Ph.D. in veterinary anatomy from Iowa State University on May 29. . . . Mr. and Mrs. John W. Thompson, Jr., (Sara Thomas '66) live in Enterprise where John is with Alabama Power Co. . . .

Mr. and Mrs. Bruce A. Seiber (Julianne Carr '66) live in Fort Collins, Colo. Bruce is working toward a Ph.D. in physics at Colorado State University and Julie hopes to do graduate work in home economics. . . .

J. Larry Cowart of Bluff City, Tenn., has been promoted to product manager of the southeastern division of Massengill Co. . . . Clabourn McCullough Edge received the Master of Religious Education from Southern Baptist Theological Seminary in May. . . . Benjamin T. Lanham received the Juris Doctorate from the University of Alabama at spring commencement.

WITH THE ARMED FORCES:

1/Lt. Nathan J. Adams, Jr., has been honored at NASA Manned Spacecraft Center in Houston, Tex., for his contribution in landing the first man on the moon. Astronaut Edwin E. Aldrin, lunar module pilot for the Apollo 11 mission and second man to set foot on the moon, presented Lt. Adams with the Meritorious Service Medal. A flight controller, Lt. Adams was cited for his contribution to the Apollo Space program. He is one of a select group of Air Force members assigned with the NASA space program.

1/Lt. Robert F. Dunbar, a pilot instructor at Keesler AFB, Miss., has been decorated for heroism. He returned from Southeast Asia in December where his action as a forward air controller earned the Silver Star Medal, Distinguished Flying Cross, and the Air Medal with 14 Oakleaf Clusters. He received the Silver Star for heroic action in the rescue of a downed pilot on Sept. 4, 1969. He received the Distin-

Alumni In The News—

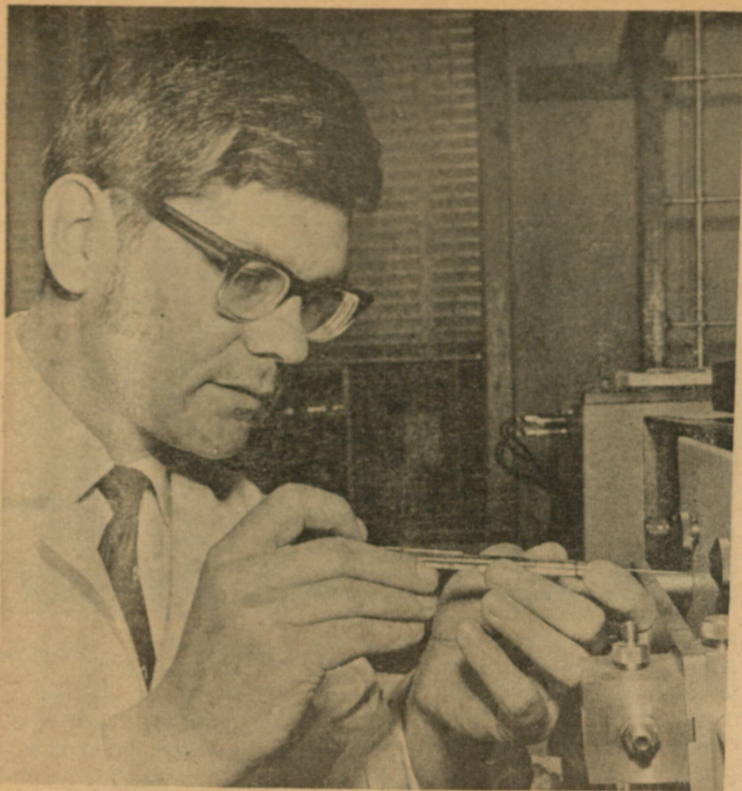

Mueller

Sconyers

Leo C. Mueller, Jr. '44 has been elected president of General Corrosion Services Corp., of Atlanta, a corrosion engineering firm.

Max Covington Sconyers '48 has accepted the position of assistant Director of Vero Beach Labs, Vero Beach, Fla. Mr. Sconyers and his wife, Lottie, have seven children—Brenda, Pamela, Marcia, Sandra, Chip, Tom, and Tye. The family will soon move to Vero Beach.

SYNTHESIZING COMPOUNDS—Funded by the Atomic Energy Commission, scientists at Auburn are synthesizing new and more complex chemical compounds by subjecting simple compounds to radiation. Dr. W. C. Askew, leader of the research, injects a fluorocarbon mixture into a gas chromatograph which separates the fluorocarbon mixture into its components. The chromatograph is a part of the equipment purchased with a \$32,000 grant from the Atomic Energy Commission.

ALUMNALITIES—Continued

received an M.A. in education from the University of Iowa on May 28. . . .

Danny M. Searcy is new U.S. game management agent at Annapolis, Md. He has been a wildlife biologist for the Division of National Wildlife Refuges at Eufaula National Wildlife Refuge, Ala., and will begin his new duties following a six-week Canadian banding assignment at Kindersley, Saskatchewan. Danny, his wife, and two children will live in Annapolis after Sept. 1. . . .

Martin A. McNulty received a Master of Business Administration from Memphis State on May 30. . . . **William Sellers Miller** is an electrical engineer now with International Data Terminals. He, his wife, Elaine, and 18-month-old son, Christopher, live in Lauderhill, Fla.

Mr. and Mrs. **Robert Earl Hudgins** (Sharon Sample '69) live in St. Petersburg, Fla., where he is assistant vice president of Hudgins Tool & Die Co. Sharon teaches business education courses at Lakewood High.

WITH THE ARMED FORCES: 2/Lt. **Glen C. Hermecz** is assigned to Wright-Patterson AFB, Ohio, to fly the KC-135 Stratotanker after completing pilot training. . . . 2/Lt. **Stephen C. Johnson** received his silver pilot wings upon graduation at Craig AFB, Ala. . . . Lt. **John N. Lyke** is a pilot at Korat Royal Thai AFB, Thailand. . . .

Lt. **Luther B. Copeland** is a navigator at Udorn Royal Thai AFB, Thailand. . . . **Thomas O. Zorn** has been promoted to first lieutenant in the Air Force. Lt. Zorn is an F-105 Thunderchief fighter-bomber pilot with the 563rd Tactical Fighter Squadron. Capt. **Luke H. Blanton** is base veterinarian at Bien Hoa, Vietnam. . . . Lt. (jg) **Vernon C. Gordon**, stationed at Pensacola NAS, Fla. . . .

Capt. **Philip E. Rice**, stationed at Dayton, Ohio. . . . 1/Lt. **Man-**

ning T. Jeter is the province psychological warfare advisor for Quang Duc Province in Vietnam, which is on the Cambodian border in a section known as the "fishhook."

MARRIED: **Beverly Anne Murdock** to **Jerry Wilkinson** in Dalton, Ga., on June 20. They live in Decatur, Ga. She teaches in Chamblee and he is administrative assistant to the president at Spelman College in Atlanta.

Melanie Elizabeth Moseley to **Robert Jerry Roberson** on July 25 in Robertsdale. He works at Peoples Drug Co. in Samson. . . .

Martha Jeannine Varner to **Ronald Wilton Disney** on Aug. 2 in Hayneville. . . .

Lynn Heath to **Jerry Wayne Snead** on August 1 in Enterprise. Mr. Snead works for Great Northern Paper Co. in Troy. . . . **Beverly Gene Caldwell** '70 to **Lt. Glenn Edward Pope** on June 27 in Talladega. Lt. Pope is leaving this month for Vietnam. . . . **Susan Keown** '70 to **Lt. Larry Dean McIntosh** on July 4 in Montgomery. Lt. McIntosh will be stationed at Castle AFB, Calif., for three months, and then will be assigned to SAC at Mathers AFB, Calif. . . .

Judy Dianne Lynchard to **Lt. William Clyde Maddox** on August 8 in Odessa, Tex. Lt. Maddox is an instructor pilot student at Perrin AFB, Sherman, Tex. . . . **Margaret Elaine Champion** to **Bernard Patrick Salamone** '70, D.V.M., on July 19 in Pine Mountain, Ga. Mrs. Salamone is in graduate school at Auburn. . . .

Margaret Giavannia Hager to **Michael Bruce Parsons** on August 8 in Jasper. . . . **Donnis Palmer** '70 to 2/Lt. **Michael F. Swick** on July 18 in Birmingham. Lt. Swick serves with the Army in Fort Knox, Ky. . . . **Paula Holley** to **Capt. Stanford Jay Bailey** on June 27 at Fort Benning, Ga. They will be leaving for Korea in November. . . .

BORN: A son, **Jeffery David**, to Lt. and Mrs. **James B. Irvin** of Fairfield, Calif., on July 9. . . . A daughter, **Barbara Ann**, to Mr. and Mrs. **Bobby Gene Hill** of Hoffman Estates, Ill., on June 14. . . .

A daughter, **Cristine Elizabeth**, to Mr. and Mrs. **E. Wycliffe Orr** of Knoxville, Tenn., on May 28. . . . A daughter, **Mary Jane**, to Lt. and Mrs. **John A. Heidler** (Mary Elizabeth Williams) of Marietta, Ga. . . .

A son, **Joel Frank**, to Mr. and Mrs. **Ronald Stewart Hammonds** of Wetumpka on June 9.

'69 WHERE THEY'RE WORK-

ING: **Scott Randall Smith** is an instructor in English at Enterprise State Junior College in Enterprise, Ala. . . . **George Rowland Pate**, engineer in manufacturing testing with Radiation Inc. in Melbourne, Fla. . . . **George H. Allen, Jr.**, civil engineer with Georgia Power Company in Atlanta. He and his wife Janie recently bought a home in Smyrna, Ga. . . .
